SECTION B ISSUER

- B.1 The legal and commercial name of the Issuer is United Finance p.l.c. (registration number C 26598).
- B.2 The Issuer was registered in Malta in terms of the Act on 26 June 2000. The Issuer is a public limited liability company and is domiciled in Malta.
- B.4b The Issuer owns the Investment Property at Ta'Xbiex, Malta which is at present fully occupied. As a result, management is primarily involved in its upkeep in order to retain current tenants and attract prospective clients at better rates in the eventuality of expiring lease agreements. Due to its ideal location and good demand for commercial space in the Sliema – Ta'Xbiex area, management is optimistic that full occupancy can be retained in the foreseeable future.

The following is an overview of the trends expected in the key areas of operation of the United Group in the foreseeable future:

Automotive - Trends in vehicle sales in Malta are satisfactory and CIL is well positioned to at least maintain its market share. The company represents well regarded automobile brands locally and in particular, Opel and Kia are among the top selling brands in Malta. New vehicle model launches by the brand companies augur well for the future trading prospects of CIL. Such prospects, together with increased marketing and new services being offered, including the option for clients to purchase vehicles on hire purchase terms, should maintain the company's competitive edge in the local market.

In the car hire and leasing market the United Group will continue to leverage its experience as franchisee of Hertz for more than 50 years in order to exploit further opportunities arising from the tourism market, evolving requirements from holiday makers and corporate client requirements. The local tourism sector is currently performing at record levels and as such the Group is focused to reflect same in its car rental business. In order to increase market share and increase its offerings, the Group has launched a new brand, Firefly, which is part of Hertz International multi brand portfolio. Firefly is a budget car rental brand which will enable the United Group to compete with other deep value brands. In this respect, the Directors are projecting that its fleet of vehicles will gradually increase from the current complement of vehicles.

In the towing and roadside assistance sector, the Group will continue to consolidate its market share and its business relationships with top local corporate clients, having regard to emerging industry trends and service quality levels.

Fashion retail - In general, the retail market in Malta is subject to stiff competition, both from local retailers as well as from online sales (through the internet). Notwithstanding this generic view, some brands are performing better than others and continue to be sought after. Given that the Group's brands, particularly Debenhams, are top international brands in the fashion retail sector, the Directors are confident that the Group's outlets can compete well for market share in Malta.

Property - The property market in Malta has been somewhat subdued in the last few years. Notwithstanding the softening of this market, there is still active demand for owning property at Pendergardens, albeit at lower levels than at the height of the property market in 2007. The Directors are satisfied that their target of selling the full complement of units, which were placed on the market to date, has been achieved and are confident that demand for the remaining apartments in Phase II of the project will be equivalent.

The commercial element of Phase II (commercial/retail/office area) is also expected to be appealing to prospective tenants and investors given that the frontage will be situated on a main arterial road and thereby offering maximum exposure. Moreover, the area enjoys a high level of activity as it is surrounded by a number of hotels (mostly in the five-star category), office blocks, including those to be developed at The Exchange Financial and Business Centre, and various retail, food and beverage outlets.

B.5 The Issuer is a wholly owned subsidiary of UGL. The organisational structure of the Group is illustrated in the diagram below.

B.9 Not Applicable: the Registration Document forming part of the Prospectus does not contain any profit forecasts or estimates.

B.10 Not Applicable: the audit reports on the audited financial statements for the years ended 31 December 2011, 2012 and 2013 do not contain any qualifications.

B.12 The historical financial information for the three financial years ended 31 December 2011, 2012 and 2013 as audited by PricewaterhouseCoopers are set out in the financial statements of the Issuer and in the consolidated financial statements of UGL. Copies of the aforementioned financial statements, together with the unaudited financial statements for the six-month period ended 30 June 2014 of the Issuer, are available from the Issuer's registered office.

The remaining components of Element B.12 are not applicable, given that:

- there has been no material adverse change in the prospects of the Issuer or the Group since the date of its respective last published audited financial statements;
- there were no significant changes in the financial or trading position of the Issuer or the Group since the end of the financial period to which the last consolidated financial statements relate.

- B.13 Not Applicable: The Issuer is not aware of any recent events which are to a material extent relevant to the evaluation of the Issuer's solvency.
- B.14 The Issuer is wholly owned by UGL. The United Group is organised into three distinct business units: automotive, fashion retail and property. In the automotive sector, the Group operates the car rental and leasing business through United Garage Limited under the Hertz and Firefly brands. In addition, the Group has a 50% shareholding in CIL which is involved in the importation of Kia, Opel and DFM automotive brands in Malta. In 2006 the Group branched out in vehicle recovery and towing services through the acquisition of the CAA towing and recovery brand.
- During the past few years, the United Group implemented a revised strategy to enhance diversification of the Group's activities. The Group ventured in the retail sector operating two Debenhams department stores in Malta and three female fashion outlets, two in Sliema and the other in Valletta. As to the property sector, the United Group has an interest in a major property development project through the acquisition of 19.23% of the equity capital of Pender Ville Limited.
- The Issuer is economically dependent on the operations and performance of the United Group
- B.15 The principal activity of the Company is to carry on the business of a finance and investment company within the United Group. The Company does not itself carry on any trading activities apart from: (i) leasing to third parties and a Group company commercial space in a property located in Ta'Xbiex; and (ii) the raising of capital and advancing thereof to members of the United Group.
- B.16 UGL currently holds all the issued ordinary shares of the Issuer except for one share which is held by United Garage Limited. The Group is wholly owned directly or indirectly through UGL by Carmen Gatt Baldacchino as to 23%, whilst the remaining 77% is equally divided between Edmund Gatt Baldacchino, Simon Gatt Baldacchino, Dolores Gatt Baldacchino and Josianne Tonna. In terms of the M&As members are entitled to appoint one director for every 20% of the issued share capital of the Issuer held by them, putting UGL in a position to appoint a majority of the Board and accordingly having control over the management and operations of the Issuer. Measures in line with the Code of Principles of Good Corporate Governance found in the Listing Rules are adopted to ensure that the relationship with UGL is retained at arm's length.
- B.17 Not Applicable: The Issuer has not sought the credit rating of an independent rating agency, and there has been no assessment by any independent rating agency of the Bonds issued by the Issuer.

SECTION C SECURITIES

- C.1 The Issuer shall issue an aggregate of €8,500,000 in Bonds having a face value of €100 per bond, subject to a minimum subscription of €2,000 in Bonds. The Bonds will be issued in fully registered and dematerialised form and will be represented in uncertificated form by the appropriate entry in the electronic register maintained on behalf of the Issuer at the CSD. On admission to trading the Bonds will have the following ISIN number MT0000131228. The Bonds shall bear interest at the rate of 5.3% per annum and shall be repayable in full upon maturity unless they are previously re-purchased and cancelled.
- C.2 The Bonds are denominated in Euro (€).
- C.5 The Bonds are freely transferable and, once admitted to the Official List of the MSE, shall be transferable only in whole in accordance with the rules and regulations of the MSE applicable from time to time.
- C.8 Investors wishing to participate in the Bonds will be able to do so by duly executing the appropriate Application Form in relation to the Bonds. Execution of the Application Form will entitle such investor to:
- (i) the payment of capital;
 - (ii) the payment of interest;
 - (iii) ranking with respect to other indebtedness of the Issuer in accordance with the status of the Bonds, as follows: "The Bonds shall constitute the general, direct, unconditional and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any priority or preference among themselves and with other unsecured debt, if any";
 - (iv) attend, participate in and vote at meetings of Bondholders in accordance with the Terms and Conditions of the Bond; and
 - (v) enjoy all such other rights attached to the Bonds emanating from the Prospectus.

C.9 As at 31 December 2013 the indebtedness of the Group amounted to an aggregate of €14.1 million, and includes bank borrowings (€2.4 million), corporate bonds (€11.5 million) and other borrowings (€0.2 million). The aforesaid bank borrowings are secured by a first general and special hypothec on the Group's property and assets, by pledges on the insurance policies of the Group companies and on trade bills. The other loans of the Group are unsecured and interest free.

Although the Issuer has no secured debt, the Investment Property is hypothecated in favour of a bank, up to a value of €2.8 million, to secure overdraft facilities of the Group. Subject to a number of limitations, the Bonds would rank after any future debts which may be secured by a cause of preference such as a privilege and/or a hypothec.

The Bonds shall bear interest from and including 7 November 2014 at the rate of 5.3% per annum on the nominal value thereof, payable annually in arrears on each Interest Payment Date. The first interest payment will be effected on 6 November 2015. Any Interest Payment Date which falls on a day other than a Business Day will be carried over to the next following day that is a Business Day. Unless previously purchased and cancelled, the Bonds will be redeemed at their nominal value on 6 November 2023.

The gross yield calculated on the basis of the Interest, the Bond Issue Price and the Redemption Value of the Bonds at Redemption Date is five point three per cent (5.3%).

The remaining component of Element C.9 is not applicable, given that no representative of debt security holders has been appointed.

C.10 Not Applicable: there is no derivative component in the interest payments on the Bonds.

C.11 The Listing Authority has authorised the Bonds as admissible to Listing pursuant to the Listing Rules by virtue of a letter dated 6 October 2014. Application has been made to the MSE for the Bonds being issued pursuant to the Prospectus to be listed and traded on the Official List. The Bonds are expected to be admitted to the MSE with effect from 17 November 2014 and trading is expected to commence on 18 November 2014.

SECTION D RISKS

Holding of a Bond involves certain risks. Prospective investors should carefully consider, with their own independent financial and other professional advisors, the following risk factors and other investment considerations as well as all the other information contained in the Prospectus before deciding to acquire Bonds. Prospective investors are warned that by investing in the Bonds they may be exposing themselves to significant risks that may have the consequence of losing a substantial part or all of their investment.

The Prospectus contains statements that are, or may be deemed to be, "forward looking statements", which relate to matters that are not historical facts and which may involve projections of future circumstances. They appear in a number of places throughout the Prospectus and include statements regarding the intentions, beliefs or current expectations of the Issuer and/or its' Directors. These forward looking statements are subject to a number of risks, uncertainties and assumptions and important factors that could cause actual risks to differ materially from the expectations of the Issuer's Directors. No assurance is given that the future results or expectations will be achieved.

Below is a summary of the principal risks associated with an investment in the Issuer and the Bonds – there may be other risks which are not mentioned in this summary. Investors are therefore urged to consult their own financial or other professional advisors with respect to the suitability of investing the Bonds. The following is a summary of the principal risk factors:

D.2 Essential information on the key risks specific to the Issuer, the Group and its business:

The business of the Issuer and operations of the Group are subject to a number of factors that could adversely affect the Group's business, financial condition and results of operations, some of which are beyond the Group's control:

- i. The Issuer is an investment and finance company and as such a majority of its assets consist of loans issued to companies within the United Group. Consequently, the Issuer is largely dependent, including for the purpose of servicing interest payments on the securities described in the Securities Note and the repayment of the principal on maturity date, on receipt of interest and loan repayments from UGL and other Group companies.
- ii. The Issuer owns the Investment Property situated in Ta'Xbiex, Malta, and as such is susceptible to a number of risks including: (a) immovable property by its nature is relatively illiquid which may affect the Issuer's ability to dispose of or liquidate its property; (ii) changes in national economy, political developments, regulations, inflation and other factors that are beyond the Issuer's control; (iii) dependence on tenants fulfilling their obligations under their lease agreements; (iv) tenants may terminate or elect not to renew their respective lease; and (v) operating and other expenses could increase without a corresponding increase in revenue.

- iii. Risks specific to the retail sector of the Group are as follows:
 - (a) The United Group is dependent on a number of franchises, the principal franchise being Debenhams. Operations of Debenhams in Malta commenced a few years ago and there can be no assurance that projected sales will be achieved. In addition, the Group's operations will be impacted negatively if the Debenhams franchise agreement is terminated;
 - (b) The Group's success in the apparel business depends on the ability of its franchisors, particularly Debenhams, to anticipate trends and respond to changing consumer preferences;
 - (c) Fashion retailing is highly competitive and, due to the growing prevalence of online retail, increasingly global;
 - (d) The Group's retail sector is exposed to exchange rate risk.
- iv. Risks specific to the car rental and leasing sector of the Group are as follows:
 - (a) Weakness in general economic conditions in Malta and weakness in travel demand may adversely impact the business;
 - (b) The high level of competition in the car rental and leasing sector may lead to reduced rental volumes and increased pricing pressure.
- v. Risks specific to the Group's investment in CIL are as follows:
 - (a) A number of factors that commonly affect the automotive industry may affect the operating performance of CIL and include amongst others: (i) changes in general economic conditions and tightening of credit; (ii) changes in car registration and circulation taxes and currency exchange rates; and (iii) reliance on the attractiveness of car models designed by car manufacturers;
 - (b) CIL is dependent on franchise agreements which may be terminated if CIL fails to keep to the standards set by the foreign principals;
 - (c) CIL's credit services operations are exposed to credit risk on its receivables;
 - (d) CIL has a number of competitors, some of which may have greater financial resources than CIL.
- vi. Risks specific to the Group's investment in PD are as follows:
 - (a) PD is subject to market and economic conditions generally;
 - (b) The property market is a very competitive market that can influence the sales of units at Pendergardens;
 - (c) PD depends on third parties in connection with its business, giving rise to counter-party risks;
 - (d) Material risks relating to real estate development, including amongst others economic conditions in Malta and general industry trends, may affect the economic performance and value of the property under development;
 - (e) PD's project relies on sales of units and garage spaces to be able to complete the development of the whole project;
 - (f) PD may be exposed to environmental liabilities attaching to real estate property.
- vii. Other risks generally applicable to the business of the United Group are as follows:
 - (a) The United Group's business activities are concentrated in and aimed at the Maltese market and is therefore highly susceptible to the economic trends that may from time to time be felt in Malta;
 - (b) The Group's key personnel and management have been and remain material to its growth. If one or more of such persons were unable or unwilling to continue in their present position, the Group might not be able to replace the individual within a reasonable period of time;
 - (c) The Group has a material amount of debt and may incur additional debt in connection with its strategic development and future growth, and which could adversely affect its financial position;
 - (d) A portion of the Group's operating expenses are fixed, which allow for limited reaction to changes in revenue;
 - (e) The Group is susceptible to adverse economic developments and trends which could have a material impact on its business.

D.3 Essential information on the key risks specific to the Bonds:

An investment in the Bonds involves certain risks, including those set out below in this section. In deciding whether to make an investment in the Bonds, prospective investors are advised to carefully consider, with their own independent financial and other (including tax, accounting, credit, legal and regulatory) professional advisors, the following risk factors (not listed in order of priority) and other investment considerations, together with all the other information contained in the Prospectus.

- i. The existence of an orderly and liquid market for the Bonds depends on a number of factors, including but not limited to the presence of willing buyers and sellers of the Issuer's Bonds at any given time and the general economic conditions in the market in which the Bonds are traded. Such factors are dependent upon the individual decisions of investors and the general economic conditions of the market, over which the Issuer has no control. Accordingly, there can be no assurance that an active secondary market for the Bonds will develop, or, if it develops, that it will continue. Furthermore, there can be no assurance that

- an investor will be able to sell or otherwise trade in the Bonds at or above the Bond Issue Price or at all.
- ii. Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds.
 - iii. A Bondholder will bear the risk of any fluctuations in exchange rates between the currency of denomination of the Bonds (€) and the Bondholder's currency of reference, if different.
 - iv. No prediction can be made about the effect which any future public offerings of the Issuer's securities, or any takeover or merger activity involving the Issuer, will have on the market price of the Bonds prevailing from time to time.
 - v. The Bonds constitute the general, direct, unconditional and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any priority or preference among themselves and with other unsecured debt, if any. Furthermore, subject to the negative pledge clause, third party security interests may be registered which will rank in priority to the Bonds against the assets of the Issuer for so long as such security interests remain in effect.
 - vi. In the event that the Issuer wishes to amend any of the Terms and Conditions of the Bond Issue it shall call a meeting of Bondholders. The provisions relating to meetings of Bondholders permit defined majorities to bind all Bondholders including Bondholders who did not attend and vote at the relevant meeting and Bondholders who voted in a manner contrary to the majority.
 - vii. The Terms and Conditions of this Bond Issue are based on Maltese law in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in Maltese law or administrative practice after the date of this Prospectus.

SECTION E OFFER

E.2b The proceeds from the Bond Issue, which net of Issue expenses are expected to amount to approximately €8,100,000, will be used by the Issuer for the purpose of part financing the redemption of the outstanding amount of the Maturing Bonds, which as at the date of the Prospectus stands at €11,614,400.

The redemption of the remaining balance of Maturing Bonds, equivalent to €3,514,400 in the event that the Bond Issue is fully subscribed, or a higher amount in the event that the Bond Issue is not fully subscribed, shall be financed from the Issuer's general cash flow.

E.3 The Bonds are open for subscription by: holders of Maturing Bonds up to the nominal value of Maturing Bonds held by them as at the Cut-Off Date; and, for any Bonds not taken up by Existing Bondholders, by Authorised Financial Intermediaries pursuant to the Intermediaries' Offer.

Existing Bondholders applying for Bonds may elect to settle all or part of the amount due on the Bonds applied for by the transfer to the Issuer of Maturing Bonds at par value, subject to a minimum holding of €2,000 in Bonds. Any Existing Bondholders whose holding in Maturing Bonds is less than €2,000 shall be required to pay the difference together with the submission of their Application Form ("**Cash Top-Up**").

In addition to the aforesaid, holders of Maturing Bonds transferring all of the Maturing Bonds held by them as at the Cut-Off Date may apply for an amount of Bonds in excess of the amount of Maturing Bonds being transferred. In such case the holders of Maturing Bonds may subscribe for additional Bonds, in multiples of €100, by appropriate entry in the Application Form.

The Bond Issue shall close on the earlier of: (i) the date on which the aggregate of Applications received from Existing Bondholders reaches €8,500,000; or (ii) if following the allocation of all Bonds applied for as set out in para (i) the full €8,500,000 of Bonds would not have been allocated, on the lapse of the Intermediaries' Offer.

In the event that an Existing Bondholder has been allocated a number of Bonds which is less than the number applied for (a Maturing Bond Transfer), Maturing Bonds equal in value to the number of Bonds allocated to such Existing Bondholder shall be transferred to the Issuer, whereas the remaining Maturing Bonds held by the Existing Bondholder and representing the aggregate nominal value of Bonds applied for but not allocated shall be retained by the Existing Bondholder.

In the event that Existing Bondholders applying for additional Bonds and/or Authorised Financial Intermediaries participating in an Intermediaries' Offer have been allocated a number of Bonds which is less than the number applied for, then such subscriber shall receive a full refund or, as the case may be, the balance of the price of the Bonds applied for but not allocated, without interest, by credit transfer to such account indicated in the Application Form or subscription agreement (as the case may be), at the subscriber's sole risk within five (5) Business Days from the date of final allocation.

Allocation Policy: The Issuer shall allocate the Bonds on the basis of the following policy and order of priority:

- i. first to Existing Bondholders up to the extent of their holdings of Maturing Bonds to be utilised for the purposes of the payment of consideration of Bonds and subject to the minimum holding of €2,000;
- ii. following the allocations referred to in paragraph (i) hereof, any remaining Bonds shall be allocated to Existing Bondholders having applied for Bonds in excess of their respective holding in Maturing Bonds;
- iii. in the event that following the allocations made pursuant to paragraphs (i) and (ii) above there shall still remain unallocated Bonds, the Issuer shall offer such remaining Bonds to Authorised Financial Intermediaries through an Intermediaries' Offer.

The following is a synopsis of the general terms and conditions applicable to the Bonds. A Bondholder is deemed to have invested only after having received, read and understood the contents of the Prospectus, including the full terms and conditions contained in the annexes thereto:

1. General

The Bonds constitute the general, direct, unconditional and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any priority or preference among themselves and with other unsecured debt, if any. Unless previously purchased and cancelled, the Bonds will be redeemed at their nominal value (together with interest accrued to the date fixed for redemption) on 6 November 2023.

2. Form, Denomination and Title

The Bonds will be issued in fully registered form, without interest coupons, in denominations of any integral multiple of €100 provided that on subscription the Bonds will be issued for a minimum of €2,000 per individual Bondholder. Financial Intermediaries subscribing to the Bonds through nominee accounts for and on behalf of clients shall apply the minimum subscription amount of €2,000 to each underlying client. Any person in whose name a Bond is registered may (to the fullest extent permitted by applicable law) be deemed and treated at all times, by all persons and for all purposes (including the making of any payments) as the absolute owner of such Bond. Title to the Bonds may be transferred as provided in the Securities Note.

3. Redemption and Purchase

Unless previously purchased and cancelled, the Bonds will be redeemed at their nominal value (together with interest accrued to the date fixed for redemption) on the Redemption Date. Subject to the provisions of this paragraph, the Issuer may at any time purchase Bonds in the open market or otherwise at any price. Any purchase by tender shall be made available to all Bondholders alike. All Bonds so purchased will be cancelled forthwith and may not be re-issued or re-sold.

4. Interest and Yield

The Bonds shall bear interest at the rate of 5.3% per annum payable annually on the 6 November of each year. Interest shall accrue as from 7 November 2014. The first Interest Payment Date following the issuance of this Prospectus shall be 6 November 2015. Any Interest Payment Date which falls on a day other than a Business Day will be carried over to the next following day that is a Business Day.

A Maturing Bond Transfer shall be without prejudice to the rights of the holders of Maturing Bonds to receive interest on the Maturing Bonds up to and including 6 November 2014.

The gross yield calculated on the basis of the interest, the Bond Issue Price and the redemption value of the Bonds at Redemption Date is 5.3%.

5. Status of the Notes and Negative Pledge

The Bonds constitute the general, direct, unconditional and unsecured obligations of the Issuer, and shall at all times rank *pari passu*, without any priority or preference among themselves and with other unsecured debt, if any.

6. Payments

Payment of the principal amount of a Bond will be made in Euro by the Issuer to the person in whose name such Bonds are registered, with interest accrued up to the Redemption Date, by means of direct credit transfer into such bank account as the Bondholder may designate from time to time, provided such bank account is denominated in Euro and held with any licensed bank in Malta. Such payment shall be effected within seven (7) days of the Redemption Date.

Payment of interest on a Bond will be made in Euro to the person in whose name such Bond is registered as at the close of business fifteen (15) days prior to the Interest Payment Date, by means of a direct credit transfer into such bank account as the Bondholder may designate from time to time. Such payment shall be effected within seven (7) days of the Interest Payment Date.

7. Events of Default

The Securities Note sets out a list of events of default the occurrence of which would result in the Bonds becoming immediately due and repayable at their principal amount together with accrued interest.

8. Transferability of the Bonds

The Bonds are freely transferable and, once admitted to the Official List of the MSE, shall be transferable only in whole in accordance with the rules and regulations of the MSE applicable from time to time. All transfers and transmissions are subject in all cases to any pledge (duly constituted) of the Bonds and to any applicable laws and regulations. The cost and expenses of effecting any registration of transfer or transmission, except for the expenses of delivery by any means other than regular mail (if any) and except, if the Issuer shall so require, the payment of a sum sufficient to cover any tax, duty or other governmental charge or insurance charges that may be imposed in relation thereto, will be borne by the Issuer. The Issuer will not register the transfer or transmission of Bonds for a period of fifteen (15) days preceding the due date for any payment of interest on the Bonds.

9. Further Issues

The Issuer may, from time to time, without the consent of the Bondholders, create and issue further debentures, debenture stock, bonds, loan notes, or any other debt securities, either having the same terms and conditions as any outstanding debt securities of any series (including the Bonds) and so that such further issue shall be consolidated and form a single series with the outstanding debt securities of the relevant series (including the Bonds), or upon such terms as the Issuer may determine at the time of their issue.

10. Meetings of Participation Bondholders

The provisions of the Prospectus may be amended with the approval of the Bondholders at a meeting called for that purpose by the Issuer in accordance with the terms and procedure set out in the Securities Note.

11. Governing Law and Jurisdiction

The Bonds have been created, and the Bond Issue relating thereto is being made, in terms of the Act. From their inception the Bonds, and all contractual arrangements arising therefrom, shall be governed by and shall be construed in accordance with Maltese law. Any legal action, suit, action or proceeding against the Issuer arising out of or in connection with the Bonds shall be brought exclusively before the Maltese Courts and the Bondholder shall be deemed to acknowledge that it is submitting to the exclusive jurisdiction of the Maltese Courts as aforesaid.

E.4 Save for the possible subscription for Bonds by Authorised Financial Intermediaries (which includes Charts Investment Management Service Limited), and any fees payable to Charts Investment Management Service Limited in connection with the Issue as Sponsor, so far as the Issuer is aware no person involved in the Issue has an interest material to the Issue.

2.1 FORWARD-LOOKING STATEMENTS

The Prospectus and the documents incorporated therein by reference or annexed thereto contain forward-looking statements that include, among others, statements concerning the Issuer's strategies and plans relating to the attainment of its objectives, capital requirements and other statements of expectations, beliefs, future plans and strategies, anticipated developments and other matters that are not historical facts and which may involve predictions of future circumstances. Investors can generally identify forward-looking statements by the use of terminology such as "may", "will", "expect", "intend", "plan", "estimate", "anticipate", "believe", or similar phrases.

These forward-looking statements are inherently subject to a number of risks, uncertainties and assumptions. Important factors that could cause actual results to differ materially from the expectations of the Issuer's Directors include those risks identified under the heading "Risk Factors" and elsewhere in the Prospectus. If any of the risks described were to materialise, they could have a serious effect on the Issuer's financial results, trading prospects and the ability of the Issuer to fulfil its obligations under the securities to be issued. Accordingly, the Issuer cautions the reader that these forward-looking statements are subject to risks and uncertainties that could cause actual events or results to differ from those expressed or implied by such statements and no assurance is given that the future results or expectations will be achieved.

All forward-looking statements contained in this document are made only as at the date hereof. 2.2 RISKS RELATING TO THE ISSUER AND ITS BUSINESS

2.2.1 *Issuer's dependence on payments due from UGL and other Group companies may be affected by factors beyond the Issuer's control.*

The Issuer is an investment and finance company and as such a majority of its assets consist of loans issued to companies within the United Group. Consequently, the Issuer is largely dependent, including for the purpose of servicing interest payments on the securities described in the Securities Note and the repayment of the principal on maturity date, on receipt of interest and loan repayments from UGL and other Group companies. In this respect, the operating results of the United Group have a direct effect on the Issuer's financial position and therefore the risks intrinsic in the business and operations of the United Group have a direct effect on the ability of the Issuer to meet its obligations in respect of the repayment of principal and interest under the Bonds when due.

The interest payments and loan repayments to be effected by the operating companies of the United Group are subject to certain risks. More specifically, the ability of Group companies to effect payments to the Issuer will depend on their respective cash flows and earnings which may be restricted by: changes in applicable laws and regulations; by the terms of agreements to which they are or may become party, including the indenture governing their existing indebtedness, if any; or by other factors beyond the control of the Issuer. The occurrence of any such factor could in turn negatively affect the ability of the Issuer to meet its obligations in respect of the

payment of interest on the Bonds and repayment of principal when due. The risk specific to the other members of the Group upon which the Issuer depends are set out in section 2.3 below.

2.2.2 Risks related to the Issuer's ownership of the Investment Property.

The Issuer owns the Investment Property situated in Ta'Xbiex, Malta, and as such is susceptible to a number of risks including:

- Immovable property by its nature is relatively illiquid. This factor, combined with the fact that so far the Issuer has made only one material property investment, may affect the Issuer's ability to vary its portfolio or dispose of or liquidate part of its portfolio in a timely fashion and at satisfactory prices in response to changes in economic, real estate market or other conditions or the exercise by tenants of their contractual rights such as those which enable them to vacate properties occupied by them prior to, or at, the expiration of the lease term.
- The health of the property and commercial rental market may be affected by a number of factors such as national economy, political developments, government regulations, changes in planning or tax laws, interest rate fluctuations, inflation, the availability of financing and yields of alternative investments. An increase in the supply of commercial space could impact negatively upon capital values and income streams of the property.
- The Issuer is dependent on tenants fulfilling their obligations under their lease agreements. The business, revenue and projected profits of the Issuer would be negatively impacted if tenants fail to honour their respective lease obligations.
- The Issuer is subject to the risk that tenants may terminate or elect not to renew their respective lease, either due to the expiration of the lease term or due to an early termination of the lease. In cases of early termination by tenants prior to the expiration of the lease term there is a risk of loss of rental income if the tenant is not replaced in a timely manner.
- The Issuer's operating and other expenses could increase without a corresponding increase in revenue. The factors which could materially increase operating and other expenses include:
 - i. unforeseen increases in the costs of maintaining the property;
 - ii. material increases in operating costs that may not be fully recoverable from tenants; and
 - iii. increases in the rate of inflation above the level of annual increments contracted with tenants.

These factors could have an adverse effect on the Issuer's financial condition and results.

2.3 RISKS RELATING TO THE UNITED GROUP AND ITS BUSINESS

RISKS SPECIFIC TO THE RETAIL SECTOR

2.3.1 The United Group is dependent on a number of franchises.

The retail business of the United Group is presently focused on a number of franchises, the principal franchise being "Debenhams" which was introduced to the local market four years ago. Despite the fact that Debenhams is one of the leading brands in the United Kingdom, it is still a relatively new concept to Malta and therefore a few more years of operation are required to establish a more stable market presence locally. There can be no assurance that projected sales will be achieved and any shortfall in sales would have an adverse impact on the Group's revenue generation, cash flows and financial performance.

Furthermore, the Group is dependent on maintaining a good relationship with each of the franchise owners to ensure continuation and renewal of the respective franchise agreements. A termination of either of the franchises, in particular the Debenhams franchise, would have an adverse effect on the Group's operations and income.

2.3.2 The Group's success in the apparel business depends on the ability of its franchisors, particularly Debenhams, to anticipate trends and respond to changing consumer preferences.

The apparel industry is subject to rapidly evolving fashion trends and shifting consumer demands. Accordingly, the success of the respective brands, and in turn the success of the Group's outlets in Malta, is dependent upon both the priority customers place on fashion and the franchisors' ability to anticipate, identify and capitalise upon emerging fashion trends. If any of the franchisors fail to anticipate, identify or react appropriately, or in a timely manner, to fashion trends, the Group's outlets could experience reduced customer acceptance of its products. These factors could result in decreased sales volume and lower product margins, and could have a material adverse effect on the Group's results of operations.

2.3.3 Increased competition.

Fashion retailing is highly competitive and, due to the growing prevalence of online retail, increasingly global. Many of the Group's current and potential competitors may have longer operating histories, greater name recognition, larger customer bases and greater financial and other resources than the Group. A decline in the relative competitive strength of the Group's brands could adversely affect the Group's results of operations.

2.3.4 *The Group's retail sector is exposed to exchange rate risk.*

The United Group can be impacted by transaction risk, which is the risk that the currency of the costs and liabilities fluctuates in relation to the Euro being its reporting currency, which fluctuation may adversely affect its operating performance.

RISKS SPECIFIC TO THE CAR RENTAL AND LEASING SECTOR

2.3.5 *Weakness in general economic conditions in Malta and weakness in travel demand may adversely impact the business.*

If economic conditions in Malta were to weaken, the financial condition and results of operations could be adversely impacted. In particular, a decline in airline travel will probably have a direct adverse impact on the results of operations of the United Group. A slowdown in air travel could materialise if the industry experiences a significant reduction in airline capacity, airfare or related fee increases, any events that disrupt or reduce business or leisure air travel.

2.3.6 *The high level of competition in the car rental and leasing sector may lead to reduced rental volumes and increased pricing pressure.*

The car rental and leasing sector is highly competitive and pricing is one of the primary competitive factors in the industry. If the Group's competitors decide to compete aggressively on the basis of pricing, the United Group risks losing rental volume if it does not adjust its offerings to counteract its competitors' actions. The internet has increased pricing transparency among car rental and leasing companies by enabling cost-conscious customers to more easily obtain and compare the rates available from various companies. This transparency may increase the prevalence and intensity of price competition in the future, and as a result may impact negatively the financial results of the United Group.

RISKS SPECIFIC TO THE GROUP'S INVESTMENT IN CARS INTERNATIONAL LIMITED ("CIL")

2.3.7 *Material risks relating to the automotive industry may affect the operating performance of CIL.*

There are a number of factors that commonly affect the automotive industry, many of which are beyond CIL's control. Such factors include:

- changes in general economic conditions, tightening of credit and/or other factors that may adversely impact retail sales;
- changes in car registration and circulation taxes, currency exchange rates and/or other factors may favour the importation of used cars which may lead to a decrease in sales of new vehicles;
- fluctuations in currency exchange rates and interest rates could adversely affect profitability; and
- reliance on the attractiveness of car models designed by car manufacturers. In certain circumstances design, quality and other factors of a particular model may adversely impact the level of demand for such cars.

If any of the risks described above were to materialise, they could have an adverse effect on the financial results and trading prospects of CIL and in turn, may impact negatively the Group's results of operations and financial condition.

2.3.8 *CIL is dependent on franchise agreements.*

CIL is highly dependent on its relationship with the car manufacturers which it represents in Malta. In line with Block Exemptions Regulations the distribution agreements with foreign principals have no expiry dates. However car manufacturers may still terminate distribution agreements if CIL fails to keep to the standards set by the foreign principals. This dependence could adversely affect CIL's operating results and growth strategy if it were unable to maintain the existing relationships or replace them with alternative relationships on equivalent terms and conditions.

2.3.9 *CIL's credit services operations are exposed to credit risk on its receivables.*

Credit risk is the risk of loss arising from a failure by a customer to meet the terms of any contract with CIL's credit services operations. Credit losses are influenced by general business and economic conditions, including unemployment rates, bankruptcy filings and other factors that negatively affect household incomes, as well as contract terms, customer credit profiles and the new and used automotive market. Negative changes in general business, economic or market factors may have an additional adverse impact on CIL's credit losses and future earnings.

2.3.10 *CIL has a number of competitors, some of which may have greater financial resources than CIL.*

A number of CIL's competitors are more diversified than CIL, and compete in all segments of the automotive market. Also, CIL's retail price for its cars may be higher than its competitors, and if price becomes a more important competitive factor for consumers in the automotive market, CIL may be at a competitive disadvantage. In addition, CIL's credit services operations face competition from various banks and other financial institutions that may have access to additional sources of capital at more competitive rates and terms. Failure to adequately

address and respond to these competitive pressures may have a material adverse effect on CIL's business and results of operations.

RISKS SPECIFIC TO THE GROUP'S INVESTMENT IN PENDERGARDENS ("PD")

If any of the risks described below were to materialise, they could have an adverse effect on the financial results and trading prospects of PD and in turn, may impact negatively the Group's results of operations and financial condition.

2.3.11 PD is subject to market and economic conditions generally.

PD is subject to the general market and economic risks that may have a significant impact on the project, its timely completion and budgetary constraints. These include factors such as the state of the local property market, inflation and fluctuations in interest rates, exchange rates, property prices and other economic and social factors affecting demand for real estate generally. In the event that general economic conditions and property market conditions experience a downturn which is not contemplated in PD's planning during the construction and completion of the project, this shall have an adverse impact on the financial condition of PD.

2.3.12 The property market is a very competitive market that can influence the sales of units at Pendergardens.

The real estate market in Malta is very competitive in nature. An increase in supply and/or a reduction in demand in the property segments in which PD operates and targets to sell the properties being developed, may cause sales of commercial and residential units at Pendergardens to sell at prices which are lower than is being anticipated by PD or that sales of such units are in fact slower than is being anticipated. If these risks were to materialise, particularly if due to unforeseen circumstances there is a delay in the tempo of sales envisaged by PD, they could have a material adverse impact on PD.

2.3.13 PD depends on third parties in connection with its business, giving rise to counterparty risks.

PD relies upon third party service providers such as architects, building contractors and suppliers for the construction and completion of the project. PD has engaged, and will engage in future, the services of third party contractors for the purpose of the development of the project including excavation, construction and finishing of the developments in a timely manner and within agreed cost parameters. This gives rise to counter-party risks in those instances where such third parties do not perform in line with PD's expectations and in accordance with their contractual obligations. If these risks were to materialise, the resulting development delays in completion could have an adverse impact on PD's businesses, and their respective financial condition, results of operations and prospects.

2.3.14 Material risks relating to real estate development may affect the economic performance and value of the property under development.

There are a number of factors that commonly affect the real estate development industry, many of which are beyond PD's control, and which could adversely affect the economic performance and value of the PD's real estate property under development. Such factors include:

- changes in general economic conditions in Malta;
- general industry trends, including the cyclical nature of the real estate market;
- changes in local market conditions, such as an over-supply of similar properties, a reduction in demand for real estate or change of local preferences and tastes;
- possible structural and environmental problems;
- acts of nature, such as earthquakes and floods, that may damage the property or delay its development; and
- increased competition in the market segment in which the Issuer is undertaking the real estate development may lead to an oversupply of commercial or residential properties in such markets, which could lead to a lowering of prices and a corresponding reduction in revenue of PD from the project.

Any of the factors described above could have a material adverse effect on PD's business, its respective financial condition and prospects.

2.3.15 PD's project relies on sales of units and garage spaces for completion.

PD makes reliance on the revenues that it expects to generate from the sale of a number of units and garage spaces forming part of the project to be able to complete the development of the whole project. If the proceeds from sales of commercial and residential units and/or garage spaces is not in line with expectations or if the proceeds from sales is lower than expectations, PD may be unable to complete the development of the whole project, which could itself have a material adverse impact on the generation of sufficient cash by PD.

2.3.16 PD may be exposed to environmental liabilities attaching to real estate property.

PD may become liable for the costs of removal, investigation or remediation of any hazardous or toxic substances that may be located on or in, or which may have migrated from, a property owned or occupied by it, which costs may be substantial. PD may also be required to remove or remediate any hazardous substances that it causes or knowingly permits at any property that it owns or may in future own. Laws and regulations, which may be amended over time, may also impose liability for the presence of certain materials or substances or the release of certain materials or substances into the air, land or water or the migration of certain materials or substances from a real estate investment, including asbestos, and such presence, release or migration could form the basis for liability to third parties for personal injury or other damages. These environmental liabilities, if realised, could have a material adverse effect on its business, financial condition and results of operations.

OTHER RISKS GENERALLY APPLICABLE TO THE BUSINESS OF THE UNITED GROUP

2.3.17 Dependence on the Maltese market

The United Group's business activities are concentrated in and aimed at the Maltese market. Accordingly, the United Group is highly susceptible to the economic trends that may from time to time be felt in Malta. Negative economic factors and trends in Malta, particularly those having an effect on consumer demand, would have a negative impact on the business of the United Group.

2.3.18 The Group's key personnel and management have been and remain material to its growth.

If one or more of the directors, management team and other personnel were unable or unwilling to continue in their present position in one or more companies forming part of the Group, such company, might not be able to replace the individual within a reasonable period of time, which could have a material adverse effect on the Group's business, financial condition and results of operations.

2.3.19 The Group's indebtedness could adversely affect its financial position.

The Group has a material amount of debt and may incur additional debt in connection with its strategic development and future growth.

Substantial borrowings under bank credit facilities are at variable interest rates, which causes the Group to be vulnerable to increases in interest rates. The agreements regulating the Group's bank debt impose and are likely to impose significant operating restrictions and financial covenants on the Group. These restrictions and covenants could limit the Group's ability to obtain future financing, make capital expenditure, withstand a future downturn in business or economic conditions generally or otherwise inhibit the ability to conduct necessary corporate activities.

A portion of the cash flow generated from the Group's operations is utilised to repay their debt obligations pursuant to financial covenants to which they are subject. This gives rise to a reduction in the amount of cash available which would otherwise be available for funding of the Group's working capital, capital expenditure and other general corporate costs, or for the distribution of dividends.

2.3.20 A portion of the Group's operating expenses are fixed, which allow for limited reaction to changes in its revenue.

A portion of the Group's costs are fixed and the Group's operating results are vulnerable to short-term changes in its revenues. The Group's fixed operating expenses are not easily reduced to react to changes in its revenue by reducing its operating expenses, which could have a material adverse effect on its business, financial condition and results of operations.

2.3.21 Exposure to economic conditions.

The Group is susceptible to adverse economic developments and trends both locally and overseas. Negative economic factors and trends could have a material impact on the business of the Group generally, and may adversely affect revenues and results of operations.

Accordingly, the Issuer is economically dependent on the operations and performance of the United Group.

4.1.2 Overview of the Issuer's business

The Issuer was incorporated on 26 June 2000 for the purpose of acting as a finance company for the Group, principally by assuming the credit risk evaluation of accounts receivable. In line with its activities, in September 2000, the Issuer issued to the general public in Malta €9,317,494 (Lm4 million) 6.75% bonds redeemable at par. The bonds were listed on the Malta Stock Exchange and matured on 31 October 2008.

In June 2008, the Issuer issued €12,000,000 6.75% bonds of €100 each, redeemable at par between 2014 and 2016. The bonds are listed on the Official List of the MSE. The net bond proceeds of the issue were utilised to re-finance the redemption of the above bond, to finance the operations of United Automobile Limited and United Garage Limited, and to fund investments in Pendergardens and the retail fashion sector.

Set out below are highlights extracted from the audited financial statements of the Issuer for the years ended 31 December 2011, 2012 and 2013, which have been published and are available at the Issuer's registered office.

Interest payable mainly related to interest due on the €12 million 6.75% bonds 2014 – 2016.

The increase in profit to €709,773 in the financial year ended 31 December 2013 primarily related to an increase in fair value of the Investment Property amounting to €702,471. At year end, the carrying value of the Investment Property was of €4.55 million.

The Issuer is not party to any principal investments, and has not entered into or committed for any principal investments subsequent to 31 December 2013, being the date of the latest audited financial statements of the Issuer.

4.1.3 Historical development of the United Group

The United Group was established some 90 years ago by the late Carmelo Gatt Baldacchino with the formation of the United Motor Company, a transportation company engaged in the field of bus service and chauffeur-driven vehicle services. With the rapid growth of the tourism industry in Malta in the 1960’s, the company, under the leadership of Carmelo’s son, Charles Gatt Baldacchino, diversified its business activities by establishing operations in destination management services, including leisure and excursion services for leading international tour operators. With the continued growth of the tourism industry in Malta and the lack of proper transportation facilities and infrastructure to handle such growth, Charles Gatt Baldacchino ventured into car rental services. This business performed well over the years and in 1961 was granted the Hertz franchise for Malta, a franchise still held today. The United Group operates the car rental business through United Garage Limited. In 1992, the company expanded its services by setting up a vehicle leasing division with the backing of Hertz Leasing.

In 1982, United Automobile Limited was appointed sole representative in Malta of the renowned car manufacturer Adam Opel A.G., and in 1991 was granted the sole distribution rights for the Saab brand. On 1 July 2011, United Automobile Limited agreed to merge its car dealership operations with the business of Easysell Kia (Malta) Limited through the setting up of a new company – Cars International Limited. CIL is equally owned by the United Group and the Tumas Group and represents Kia, Opel, and DFM automotive brands in Malta. In 2006 the Group branched out in vehicle recovery and towing services through the acquisition of the CAA business.

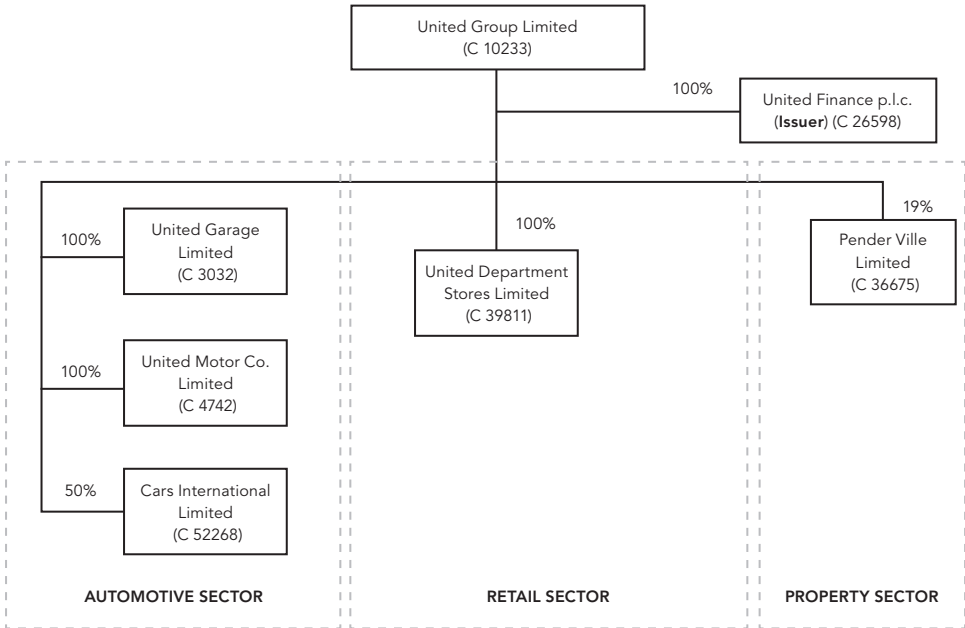

During the past few years, the United Group implemented a revised strategy to enhance diversification of the Group’s activities. The Group ventured in the retail sector operating two Debenhams department stores in Malta and two female fashion outlets, one in Sliema and the other in Valletta. In addition, the United Group has an interest in a major property development project through the acquisition of 19.23% of the equity capital of Pender Ville Limited.

There have been no recent events particular to the Issuer which are materially relevant to the evaluation of the Issuer’s solvency.

4.1.4 Group organisational structure

The Issuer is a wholly owned subsidiary of UGL and has an authorised share capital of €2,500,000 divided into 2,500,000 ordinary shares of €1 each. The issued share capital amounts to €2,329,373 divided into 2,329,373 ordinary shares of €1 each, fully paid up.

As the finance company of the Group, the Issuer is ultimately dependent upon the operations and performance of the Group’s operating companies. The organisational structure of the Group is illustrated in the diagram below:

United Group Limited is the parent company of the United Group and is primarily focused on establishing and monitoring strategic direction and development of the Group. During the current financial year ending 31 December 2014, the Group initiated a corporate restructuring exercise as follows:

- United Automobile Limited (C 5845), G&G Automobile Limited (C 29084) and Gatt Estates Limited (C 4171) are non-operating companies and will be merged with UGL;
- United Retail Limited (C 36776), the operator of fashion retail outlets, was merged on 26 June 2014 with United Department Stores Limited (C 39811), the franchisee for the Debenhams brand. The brands will now be marketed through the latter company;
- United Assets and Management Services Limited (C 27053) is principally engaged in providing management services and support to Group companies. This company will be merged with UGL in the last quarter of 2014.

The aforementioned companies have been excluded from the Group organisational chart to reflect the position of the Group after the restructuring is completed.

The United Group is organised into three distinct business units as detailed in sections 4.1.5 to 4.1.8 below.

4.1.5 Automotive

The companies forming part of this segment are primarily engaged in: (i) the importation and servicing of motor vehicles and the sale of parts and accessories; (ii) car rental and leasing service; and (iii) vehicle recovery and towing service.

Prior to 2011, Opel vehicles were distributed in Malta by United Automobile Limited. As a result of increased competition over the years in the local market, both from new motor vehicle franchises and models imported at competitive prices, the United Group agreed on 1 July 2011 to merge its car dealership business with the operations of Easysell Kia (Malta) Limited. The newly formed company, Cars International Limited, is equally owned by the United Group and the Tumas Group and represents Kia, Opel and DFM automotive brands in Malta.

The principal objectives supporting this transaction are as follows:

- Substantial cost savings have been achieved through the consolidation of human resources, property costs and selling, general and administrative overheads of both companies; and
- The newly merged operation is in a position to offer a wider variety of models in different segments and at various price levels, since it represents three car dealership franchises. This allows the company to have a superior presence across all market segments in the private vehicle classes in Malta. The merger has lessened CIL's dependence on any particular model.

CIL operates from premises owned by Easysell Kia (Malta) Limited in Mdina Road, Qormi, Malta and includes a showroom and delivery area measuring 702m² and 435m² respectively. The after-sales and service centre is located in Pantar Road, Lija, Malta and measures *circa* 2,000m², with an additional 2,000m² reserved for customer parking. The property is leased from a third party company.

The United Group operates the car rental business under the Hertz brand through United Garage Limited. The company owns and manages a fleet of self drive and leasing vehicles, and has over the years established a network of strategically located Hertz branded retail outlets at vantage points around Malta, including Malta International Airport and main tourist resorts, thus ensuring a convenient and efficient service to customers.

United Garage Limited has recently launched a new brand in Malta, namely Firefly, also owned by Hertz. Firefly addresses the budget value segment of the car rental market. In this respect, United Garage Limited plans to price the Firefly fleet of vehicles at highly competitive rates. This will enable the company to increase its market spread and maintain a better pricing and yield model for its branded fleet.

In the early 1990s United Garage Limited also diversified its activities into car leasing, which it operates under the Hertz Leasing brand. This was a natural extension of the company's rent-a-car activities.

In January 2006 the Group through its subsidiary United Motor Company Limited (UMCL) acquired the business of CAA road towing and road assistance service. Despite the acquisition being a new venture for the Group, the Group's experience acquired throughout the years in the automotive services sector and the greater synergy within the Group's automotive division, ensures that UMCL's customers are provided with the best possible service.

4.1.6 Fashion retail

The United Group is the appointed franchisee in Malta of Debenhams and two other women's fashion brands. The latter two brands are marketed through two outlets located in Tower Road, Sliema and Zachary Street, Valletta and offer a range of women's fashion clothing and accessories.

In the first quarter of 2010, United Department Stores Limited opened the Debenhams department store at The Point Shopping Centre in Sliema, Malta. Debenhams' key product categories include womenswear, menswear, childrenswear and homeware. Since introducing Debenhams to the local market four years ago the Group has experienced encouraging year-on-year sales growth, which instigated the Group to open, in November 2012, a second Debenhams store at the Main Street Shopping Complex in Paola, Malta.

The Directors are of the view that the Debenhams brand, with its reputation for quality apparel at reasonable prices, has carved a competitive position in the apparel market in Malta. With an experienced Board and management team, the Group has the necessary expertise to further develop the Debenhams brand in Malta and fulfil its potential for future growth.

The key objective of the Group for its retail operations is to strengthen recognition of each of its brands, in particular Debenhams, within their respective target markets, enhance revenue growth and maintain efficiency at the operational level. At the same time, the Directors will continue to explore opportunities to invest in other retail concepts that offer features that are attractive to the Group in terms of benefits from possible synergies and revenue expansion.

4.1.7 Property

The United Group has an interest in Pendergardens located in St Julians, Malta through the ownership of 19.23% of the equity capital of Pender Ville Limited. The Pendergardens Group was set up in July 2005 to acquire and develop the Pender Place site which covers an area of 18,500m² (known as Pendergardens) and the Mercury House site having a footprint of 8,500m² (known as The Exchange).

Pendergardens, which has a Special Designated Area status, is being developed in two phases. The first phase has been completed and includes 150 residential apartments spread over 6 blocks (Blocks 10 to 15) together with 406 car park spaces ("Phase I"). As at the date of this Prospectus, 149 apartments and 183 car park spaces have been sold over a six-year period to a mix of Maltese residents (46%) and foreigners (EU nationals – 43%, non-EU nationals – 11%). The remaining one apartment was not placed on the market due to its proximity to the next phase of development. Construction of Phase II commenced in 2012 and includes the development of (i) Block 16 having a gross floor area measuring *circa* 16,404m² and consisting of 46 residential apartments, double height commercial space (1,336m²) and four levels of underlying car park; (ii) Block 17 having a gross floor area measuring *circa* 20,771m² and consisting of 43 residential apartments, commercial space (5,853m²) and underlying car park; and (iii) Towers I & II comprising a gross floor area measuring *circa* 22,684m², and which will offer 30 residential apartments and 8,784m² of office and retail space. It is projected that Phase II will be completed by mid-2018 and all units will be sold by the end of 2022.

The Exchange is earmarked for commercial use and will be promoted as a financial and business centre. It will consist of 16,700m² of office space within two towers and 10,800m² of retail and leisure outlets fronting a large public piazza. Car park spaces, numbering *circa* 476, will be available in the underground levels with direct vertical access to the offices and outlets. In 2009, an area measuring 950m² was sold to FIMBank plc, an international trade finance bank listed on the Malta Stock Exchange. Construction works were completed in September 2011 and the bank transferred its operations to the new premises in June 2012.

4.1.8 Business development strategy

The United Group believes in diversification not only by way of a business strategy but also as a risk management policy for the benefit of all its stakeholders. The Group has evolved at a relatively rapid pace over the last four to five years and has diversified its operations from its core automotive business to investments in fashion retail and property. Such investments were executed through the acquisition of new operations as well as through strategic joint ventures with well established business partners that share and complement the Group's core business values. The Group's strategy is to consolidate and grow market share of its current business portfolio, and shall maintain its on-going pursuit for new, prudent and sustainable investment and business opportunities.

To sustain business growth and competitiveness the Group is streamlining its organisational structure to improve efficiency and enhance through the recruitment of professional management and strict cooperate governance its strategic focus at operational level. Furthermore, the Group is restructuring its borrowings to better match the funding requirements of its operations and manage debt repayment programmes, which concurrently should result in a reduction in Group finance costs.

5 TREND INFORMATION AND FINANCIAL PERFORMANCE

5.1 TREND INFORMATION

There has been no material adverse change in the prospects of the Issuer since the date of publication of its latest audited financial statements.

At the time of publication of this Registration Document, the Issuer considers that its future performance is intimately related to the United Group. The Issuer considers that generally the United Group will be subject to the normal business risks associated with the industries in which it is involved and does not anticipate any trends, uncertainties, demands, commitments or events outside the ordinary course of business that could be deemed likely to have a material effect on the upcoming prospects of the United Group and its business, at least with respect to the current financial year and the forecast year ending 31 December 2015.

The Issuer

The Issuer owns the Investment Property at Ta'Xbiex, Malta which is at present fully occupied. As a result, management is primarily involved in its upkeep in order to retain current tenants and attract prospective clients at better rates in the eventuality of expiring lease agreements. Due to its ideal location and good demand for commercial space in the Sliema – Ta'Xbiex area, management is optimistic that full occupancy can be retained in the foreseeable future.

United Group

The following is an overview of the trends expected in the key areas of operation of the United Group in the foreseeable future:

(i) Automotive

Trends in vehicle sales in Malta are satisfactory and CIL is well positioned to at least maintain its market share. The company represents well regarded automobile brands locally and in particular, Opel and Kia are among the top selling brands in Malta. New vehicle model launches by the brand companies augur well for the future trading prospects of CIL. Such prospects, together with increased marketing and new services being offered, including the option for clients to purchase vehicles on hire purchase terms, should maintain the company's competitive edge in the local market.

In the car hire and leasing market the United Group will continue to leverage its experience as franchisee of Hertz for more than 50 years in order to exploit further opportunities arising from the tourism market, evolving requirements from holiday makers and corporate client requirements. The local tourism sector is currently performing at record levels and as such the Group is focused to reflect same in its car rental business. In order to increase market share and increase its offerings, the Group has launched a new brand, Firefly, which is part of Hertz International multi brand portfolio. Firefly is a budget car rental brand which will enable the United Group to compete with other deep value brands. In this respect, the Directors are projecting that its fleet of vehicles will gradually increase from the current complement of vehicles.

In the towing and roadside assistance sector, the Group will continue to consolidate its market share and its business relationships with top local corporate clients, having regard to emerging industry trends and service quality levels.

(ii) Fashion retail

In general, the retail market in Malta is subject to stiff competition, both from local retailers as well as from online sales (through the internet). Notwithstanding this generic view, some brands are performing better than others and continue to be sought after. Given that the Group's brands, particularly Debenhams, are top international brands in the fashion retail sector, the Directors are confident that the Group's outlets can compete well for market share in Malta.

(iii) Property

The property market in Malta has been somewhat subdued in the last few years. Notwithstanding the softening of this market, there is still active demand for owning property at Pendergardens, albeit at lower levels than at the height of the property market in 2007. The Directors are satisfied that their target of selling the full complement of units, which were placed on the market to date, has been achieved and are confident that demand for the remaining apartments in Phase II of the project will be equivalent.

The commercial element of Phase II (commercial/retail/office area) is also expected to be appealing to prospective tenants and investors given that the frontage will be situated on a main arterial road and thereby offering maximum exposure. Moreover, the area enjoys a high level of activity as it is surrounded by a number of hotels (mostly in the five-star category), office blocks, including those to be developed at The Exchange Financial and Business Centre, and various retail, food and beverage outlets.

Review of performance

Total Group revenue in the last financial year amounted to €9.4 million. This represents the consolidated revenues of all subsidiaries of the Group. In line with the decision by the Group to merge its car dealership operation with the Tumas Group through the setting up of a jointly controlled company (CIL), the Group in FY2012 registered a decrease in its consolidated revenue of 14% over the previous year since revenues from associated companies such as CIL were no longer consolidated on a line by line basis, but represented in the income statement below the operating profit line as 'share of results of associates and jointly controlled entities'. In FY2013, automotive revenue remained broadly stable at circa €2.4 million. With respect to fashion retail, the Group recorded a healthy increase in income of 16% from €5.9 million FY2011 to €6.8 million FY2013, equivalent to a compounded annual average growth rate of 7.7%.

During the three years under review, EBITDA increased from €1 million in FY2011 to €1.5 million in FY2013, which reflected a progressive increase in the EBITDA margin of the Group from 10% in FY2011 to 13% in FY2012 and 16% in FY2013. Net finance costs decreased marginally from €871,000 to €784,000 in FY2013. The Issuer registered in FY2013 an increase of €702,000 in the fair value of the Investment Property which is reflected in the Group consolidated income statement. Overall, the net results of the Group improved from a net loss of €81,000 in FY2011 to a net profit of €530,000 in FY2013.

By virtue of the Articles of Association of the Issuer the Directors are empowered to transact all business which is not by the Articles expressly reserved for the shareholders in general meeting. The powers of the Directors of the Issuer are better described in section 12.2(d) below.

The Issuer does not have any employees of its own.

7 MANAGEMENT STRUCTURE

7.1 GENERAL

The Issuer is an investment and finance company which does not require an elaborate management structure. Carmen Gatt Baldacchino has been appointed Chairperson and Edmund Gatt Baldacchino as Chief Executive Officer of the Issuer. The Directors believe that the current organisational structures are adequate for the current activities of the Company. The Directors will maintain these structures under continuous review to ensure that they meet the changing demands of the business and to strengthen the checks and balances necessary for better corporate governance.

7.2 CONFLICT OF INTEREST

Carmen Gatt Baldacchino, Edmund Gatt Baldacchino, Simon Gatt Baldacchino and Joseph F.X. Zahra are directors of the Issuer and its parent company UGL. Conflicts of interest could potentially arise in relation to transactions involving the Issuer and UGL.

The audit committee of the Issuer has the task of ensuring that any potential conflicts of interest that may arise at any moment, pursuant to these different roles held by Directors, are handled in the best interest of the Issuer and according to law. The independent Non-Executive Directors on the audit committee provide an effective measure to ensure that transactions vetted by the Audit Committee are determined on an arms-length basis. To the extent known or potentially known to the Issuer as at the date of this Registration Document, there are no potential conflicts of interest between any duties of the Directors towards the Issuer and their private interests and/or their other duties which require disclosure in terms of the Regulation.

7.3 MAJOR SHAREHOLDERS OF THE ISSUER

UGL currently holds all the issued ordinary shares of the Issuer except for one share which is held by United Garage Limited. The Group is wholly owned directly or indirectly through UGL by Carmen Gatt Baldacchino as to 23%, whilst the remaining 77% is equally divided between Edmund Gatt Baldacchino, Simon Gatt Baldacchino, Dolores Gatt Baldacchino and Josianne Tonna. In terms of the Memorandum and Articles of Association of the Issuer, members are entitled to appoint one director for every 20% of the issued share capital of the Issuer, putting it in a position to appoint a majority of the Directors of the Issuer and accordingly have control over the management and operations of the Issuer.

The Issuer adopts measures in line with the Code of Corporate Governance to ensure that the relationship with UGL is retained at arm's length, including adherence to Rules on Related Party Transactions requiring the sanction of the Audit Committee, in which the majority is constituted by the two independent Non-Executive Directors of the Issuer.

8 AUDIT COMMITTEE PRACTICES

The terms of reference of the Audit Committee consist of *inter alia* its support to the Board of Directors of the Issuer in its responsibilities in dealing with issues of risk; control and governance; and associated assurance. The Board has set formal terms of establishment and the terms of reference of the Audit Committee that establish its composition, role and function, the parameters of its remit as well as the basis for the processes that it is required to comply with. The Audit Committee is a sub-committee of the Board and is directly responsible and accountable to the Board. The Board reserves the right to change these terms of reference from time to time.

Briefly, the Committee is expected to deal with and advise the Board on:

- a) its monitoring responsibility over the financial reporting processes, financial policies and internal control structures;
- b) maintaining communications on such matters between the Board, management and the independent auditors; and
- c) preserving the company's assets by understanding the company's risk environment and determining how to deal with those risks.

In addition, the Audit Committee also has the role and function of scrutinising and evaluating any proposed transaction to be entered into by the Company and a related party, to ensure that the execution of any such transaction is at arm's length and on a commercial basis and ultimately in the best interests of the Company.

The Audit Committee is made of a majority of Non-Executive Directors and is composed of James Bonello who acts as Chairman, and the two other members are Edmund Gatt Baldacchino and Joseph F.X. Zahra. In compliance with the Listing Rules, James Bonello is the independent Non-Executive Director considered by the Board to be the director competent in accounting and/or auditing matters. The CVs of the said Directors may be found in section 6.1.3 above.

9 COMPLIANCE WITH CORPORATE GOVERNANCE REQUIREMENTS

The Issuer is subject to, and complies with, the Code of Principles of Good Corporate Governance (the "Code") forming part of the Listing Rules. The Issuer is confident that the adoption of the Code has resulted in positive effects accruing to the Issuer.

As at the date hereof, the Board considers the Company to be in compliance with the Code save for the following exceptions:

- Principle 8: The Issuer does not have a Remuneration Committee as recommended in Principle 8. The Issuer does not have any employees other than the Directors and the company secretary; and
- Principle 8: The Issuer does not have a Nomination Committee as recommended in Principle 8. Appointments to the board of directors of the Issuer are determined by the shareholders of the Company in accordance with the Memorandum and Articles of Association of the Issuer. The Issuer considers that the members of the Board provide the level of skill, knowledge and experience expected in terms of the Code.

Prospective investors should carefully consider, with their own independent financial and other professional advisors, the following risk factors and other investment considerations as well as all the other information contained in the Prospectus before deciding to make an investment in the Bonds. The sequence in which the risks below are listed is not intended to be indicative of any order of priority or of the extent of their consequences.

Neither this Securities Note, nor any other parts of the Prospectus or any other information supplied in connection with the Bonds: (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation by the Issuer or the Sponsor or Authorised Financial Intermediaries that any recipient of this Securities Note or any other part of the Prospectus or any other information supplied in connection with the Prospectus or any Bonds, should purchase any Bonds.

Accordingly prospective investors should make their own independent evaluation of all risk factors, and should consider all other sections in this document.

2.2 FORWARD-LOOKING STATEMENTS

This Securities Note contains "forward-looking statements" which include, among others, statements concerning matters that are not historical facts and which may involve projections of future circumstances. These forward-looking statements are subject to a number of risks, uncertainties and assumptions and important factors that could cause actual risks to differ materially from the expectations of the Issuer's Directors.

Potential investors are advised to read this document together with the Registration Document in its entirety and, in particular, the heading of each of these documents entitled "Risk factors" for a further discussion of the factors that could affect the Issuer's future performance. In light of these risks, uncertainties and assumptions, the events described in the forward-looking statements in this document may not occur.

All forward-looking statements contained in this document are made only as at the date hereof. Subject to its legal and regulatory obligations (including under the Listing Rules), the Issuer and its Directors expressly disclaim any obligations to update or revise any forward-looking statement contained herein to reflect any change in expectations with regard thereto or any change in events, conditions or circumstances on which any statement is based.

Forward-looking statements are not guarantees of future performance and should therefore not be construed as such. No assurance is given that the future results or expectations will be achieved.

2.3 RISKS RELATING TO THE BONDS

- The existence of an orderly and liquid market for the Bonds depends on a number of factors, including, but not limited to the presence of willing buyers and sellers of the Issuer's Bonds at any given time and the general economic conditions in the market in which the Bonds are traded. Such factors are dependent upon the individual decisions of investors and the general economic conditions of the market, over which the Issuer has no control. Accordingly, there can be no assurance that an active secondary market for the Bonds will develop, or, if it develops, that it will continue. Furthermore, there can be no assurance that an investor will be able to sell or otherwise trade in the Bonds at or above the Bond Issue Price or at all.
- Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds.
- A Bondholder will bear the risk of any fluctuations in exchange rates between the currency of denomination of the Bonds (€) and the Bondholder's currency of reference, if different.
- No prediction can be made about the effect which any future public offerings of the Issuer's securities, or any takeover or merger activity involving the Issuer, will have on the market price of the Bonds prevailing from time to time.
- The Bonds constitute the general, direct, unconditional and unsecured obligations of the Issuer and shall at all times rank *pari passu*, without any priority or preference among themselves and with other unsecured debt, if any. Furthermore, subject to the negative pledge clause (section 5.7 of this Securities Note), third party security interests may be registered which will rank in priority to the Bonds against the assets of the Issuer for so long as such security interests remain in effect.

In the event that the Issuer wishes to amend any of the Terms and Conditions of Issue of the Bond it shall call a meeting of Bondholders in accordance with the provisions of section 5.13 of this Securities Note. These provisions permit defined majorities to bind all Bondholders including Bondholders who did not attend and vote at the relevant meeting and Bondholders who voted in a manner contrary to the majority.

The Terms and Conditions of this Bond Issue are based on Maltese law in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in Maltese law or administrative practice after the date of this Prospectus.

Other than as set out above, neither the Issuer nor the Sponsor has authorised (nor do they authorise or consent to the use of this Prospectus in connection with) the making of any public offer of the Bonds by any person in any circumstances. Any such unauthorised offers are not made on behalf of the Issuer or the Sponsor and neither the Issuer nor the Sponsor has any responsibility or liability for the actions of any person making such offers.

Investors should enquire whether an intermediary is considered to be an Authorised Financial Intermediary in terms of the Prospectus. If the investor is in doubt as to whether it can rely on the Prospectus and/or who is responsible for its contents, it should obtain legal advice.

No person has been authorised to give any information or to make any representation not contained in or inconsistent with this Prospectus. If given or made, it must not be relied upon as having been authorised by the Issuer or Sponsor. The Issuer does not accept responsibility for any information not contained in this Prospectus.

In the event of a resale or placement of Bonds by an Authorised Financial Intermediary subsequent to the Intermediaries' Offer, the Authorised Financial Intermediary will provide information to investors on the terms and conditions of the resale or placement at the time such is made. Where such information is not contained in the Prospectus, it will be the responsibility of the applicable Authorised Financial Intermediary at the time of such offer to provide the investor with that information, and each of the Issuer, the Sponsor or other Authorised Financial Intermediary will not be responsible or liable for such information.

Any resale or placement of Bonds to an investor by an Authorised Financial Intermediary will be made in accordance with any terms and other arrangements in place between such Authorised Financial Intermediary and such investor including as to price, allocations and settlement arrangements. Where such information is not contained in the Prospectus, it will be the responsibility of the applicable Authorised Financial Intermediary at the time of such resale or placement to provide the investor with that information and neither the Issuer nor the Sponsor/Manager has any responsibility or liability for such information.

Any Authorised Financial Intermediary using this Prospectus in connection with a resale or placement of Bonds subsequent to the Intermediaries' Offer shall, limitedly for the period of 60 days from the date of the Prospectus,

publish on its website a notice to the effect that it is using this Prospectus for such resale or placement in accordance with the consent of the Issuer and the conditions attached thereto. The consent provided herein shall no longer apply following the lapse of such period.

Any new information with respect to Authorised Financial Intermediaries unknown at the time of the approval of this Securities Note will be made available through a company announcement which will also be made available on the Issuer's website: www.unitedgroup.com.mt

6 TAXATION

6.1.1 General

Investors and prospective investors are urged to seek professional advice as regards both Maltese and any foreign tax legislation which may be applicable to them in respect of the Bonds, including their acquisition, holding and disposal as well as any income/gains derived therefrom or made on their disposal. The following is a summary of the anticipated tax treatment applicable to Bondholders in so far as taxation in Malta is concerned. This information does not constitute legal or tax advice and does not purport to be exhaustive.

The information below is based on an interpretation of tax law and practice relative to the applicable legislation, as known to the Issuer at the date of the Prospectus, in respect of a subject on which no official guidelines exist. Investors are reminded that tax law and practice and their interpretation as well as the levels of tax on the subject matter referred to in the preceding paragraph, may change from time to time.

This information is being given solely for the general information of investors. The precise implications for investors will depend, among other things, on their particular circumstances and on the classification of the Bonds from a Maltese tax perspective, and professional advice in this respect should be sought accordingly.

6.1.2 Malta tax on interest

Since interest is payable in respect of a Bond which is the subject of a public issue, unless the Issuer is otherwise instructed by a Bondholder or if the Bondholder does not fall within the definition of "recipient" in terms of article 41(c) of the Income Tax Act, (Cap. 123 of the Laws of Malta), interest shall be paid to such person net of a final withholding tax, currently at the rate of 15% of the gross amount of the interest, pursuant to article 33 of the Income Tax Act (Cap. 123 of the Laws of Malta). Bondholders who do not fall within the definition of a "recipient" do not qualify for the said rate and should seek advice on the taxation of such income as special rules may apply.

This withholding tax is considered as a final tax and a Maltese resident individual Bondholder need not declare the interest so received in his income tax return. No person shall be charged to further tax in respect of such income. However where the Bondholder is a Maltese resident individual, he is still entitled to declare the gross interest in the tax return and the tax so deducted will be available as a credit against the individual's tax liability or for a refund as the case may be.

In the case of a valid election made by an eligible Bondholder resident in Malta to receive the interest due without the deduction of final tax, interest will be paid gross and such person will be obliged to declare the interest so received in his income tax return and be subject to tax on it at the standard rates applicable to that person at that time. Additionally in this latter case the Issuer will advise the Inland Revenue on an annual basis in respect of all interest paid gross and of the identity of all such recipients unless the beneficiary is a non-resident of Malta. Any such election made by a resident Bondholder at the time of subscription may be subsequently changed by giving notice in writing to the Issuer. Such election or revocation will be effective within the time limit set out in the Income Tax Act.

In terms of article 12(1)(c) of the Income Tax Act, Bondholders who are not resident in Malta satisfying the applicable conditions set out in the Income Tax Act are not taxable in Malta on the interest received and will receive interest gross, subject to the requisite declaration/evidence being provided to the Issuer in terms of law.

6.1.3 European Union Savings Directive

Non-residents of Malta should note that payment of interest to individuals and certain residual entities residing in another EU Member State is reported on an annual basis to the Malta Commissioner of Inland Revenue who will in turn exchange the information with the competent tax authority of the Member State where the recipient of interest is resident. This exchange of information takes place in terms of the EU Savings Directive 2003/48/EC.

6.1.4 Maltese taxation on capital gains on transfer of the Bonds

On the assumption that the Bonds would not fall within the definition of "securities" in terms of article 5(1)(b) of the Income Tax Act, that is, "shares and stocks and such like instrument that participate in any way in the profits of the company and whose return is not limited to a fixed rate of return", no tax on capital gains is chargeable in respect of transfer of the Bonds.

6.1.5 Duty on documents and transfers

In terms of article 50 of the Financial Markets Act (Cap. 345 of the Laws of Malta) as the Bonds constitute financial instruments of a company quoted on a regulated market Exchange, as is the MSE, redemptions and transfers of the Bonds are exempt from Maltese duty.

INVESTORS AND PROSPECTIVE INVESTORS ARE URGED TO SEEK PROFESSIONAL ADVICE AS REGARDS BOTH MALTESE AND ANY FOREIGN TAX LEGISLATION APPLICABLE TO THE ACQUISITION, HOLDING AND DISPOSAL OF BONDS AS WELL AS INTEREST PAYMENTS MADE BY THE ISSUER. THE ABOVE IS A SUMMARY OF THE ANTICIPATED TAX TREATMENT APPLICABLE TO THE BONDS AND TO BONDHOLDERS. THIS INFORMATION, WHICH DOES NOT CONSTITUTE LEGAL OR TAX ADVICE, REFERS ONLY TO BONDHOLDERS WHO DO NOT DEAL IN SECURITIES IN THE COURSE OF THEIR NORMAL TRADING ACTIVITY.

- 7.2.1 The consideration payable by an Applicant for Bonds may be settled, after submitting the appropriate pre-printed Application Form, by the transfer to the Issuer of all or part of the Maturing Bonds held by such Applicant as at the Cut-off Date (the "Maturing Bond Transfer"), subject to a minimum application of €2,000. Any Existing Bondholders whose holding in Maturing Bonds is less than €2,000 shall be required to pay the difference together with the submission of their Application Form ("Cash Top-Up").
- 7.2.2 In addition to the aforesaid, holders of Maturing Bonds transferring all of the Maturing Bonds held by them as at the Cut-Off Date pursuant to section 7.2.1 above may apply for an amount of Bonds in excess of the amount of Maturing Bonds being transferred. In such case the holders of Maturing Bonds may subscribe for additional Bonds, in multiples of €100, by appropriate entry in the Application Form.
- 7.2.3 The completed Application Form is to be lodged with any of the Authorised Financial Intermediaries by not later than 14.00 hours on 31 October 2014, together with payment of the Cash Top-Up referred to in section 7.2.1 above (if applicable) and the full price of the additional Bonds applied for referred to in section 7.2.2 above (if applicable). Payment shall be made in Euro and in cleared funds at the Bond Issue Price, in either cash or by cheque payable to "**The Registrar – United Finance Bond Issue**".
- 7.2.4 By submitting a signed pre-printed Application Form indicating that the Maturing Bond Transfer is being selected as consideration for the Bonds being applied for, the Applicant is thereby confirming:
- that all or part (as the case may be) of the Maturing Bonds held by the Applicant on the Cut-off Date are being transferred to the Issuer, together with the payment due in respect of any Cash Top-Up, if applicable;
 - that the pre-printed Application Form constitutes the Applicant's irrevocable mandate to the Issuer to:
 - cause the transfer of the said Maturing Bonds in the Issuer's name in consideration of the issue of Bonds; and
 - engage, at the Issuer's cost, the services of such brokers or intermediaries as may be necessary to fully and effectively vest title in the said Maturing Bonds in the Issuer and fully and effectively vest title in the appropriate number of Bonds in the Applicant.
- 7.2.5 By submitting a signed Application Form in terms of section 7.2.3 above, the Applicant is thereby confirming that: (i) the Applicant's remittance will be honoured on first presentation and agrees that, if such remittance is not so honoured on its first presentation, the Issuer and the Registrar reserve the right to invalidate the relative Application, and furthermore the Applicant will not be entitled to receive a registration advice or to be registered in the register of Bondholders, unless the Applicant makes payment in cleared funds and such consideration is accepted by the Issuer, acting through the Registrar (which acceptance shall be made in the Issuer's absolute discretion and may be on the basis that the Applicant indemnifies the Issuer against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of the Applicant's remittance to be honoured on first presentation).
- 7.2.6 Where the Applicant is the holder of Maturing Bonds which as at the Cut-Off Date are held subject to usufruct, the signatures of both the bare owner and the usufructuary will be required in the Application Form.

7.3 GENERAL TERMS AND CONDITIONS

7.3.1 The issue and allotment of the Bonds is conditional upon the Bonds being admitted to the Official List of the MSE. In the event that the Bonds are not admitted to the Official List of the MSE, no Maturing Bond Transfers (see section 7.2 above) shall take effect, and any Application monies received by the Issuer will be returned without interest by direct credit into the Applicant's bank account indicated by the Applicant on the relative Application Form.

7.3.2 In view of the fact that the proceeds of the Bond Issue are intended to be applied to the redemption of part of the outstanding amount of the Maturing Bonds, the Issuer has not established an aggregate minimum subscription level for the Bond Issue.

As indicated in section 4.1 above under the heading "**Reasons for the Issue and Use of Proceeds**", the Maturing Bonds shall be redeemed partly out of the proceeds of the Bond Issue and partly out of general cash reserves of the Issuer. In the event that the Bond Issue is not fully subscribed, the residual balance of Maturing Bonds will likewise be funded from the general cash reserves of the Issuer. It is the responsibility of investors wishing to apply for the Bonds to inform themselves as to the legal requirements of so applying including any requirements relating to external transaction requirements in Malta and any exchange control in the countries of their nationality, residence or domicile.

7.3.3 The contract created by the Issuer's acceptance of an Application filed by a prospective bondholder shall be subject to all the terms and conditions set out in this Securities Note and the Memorandum and Articles of Association of the Issuer.

7.3.4 If an Application Form is signed on behalf of another party or on behalf of a corporation or corporate entity or association of persons, the person signing will be deemed to have duly bound his principal, or the relative corporation, corporate entity, or association of persons, and will be deemed also to have given the confirmations, warranties and undertakings contained in these terms and conditions on their behalf. Such representative may be requested to submit the relative power of attorney/resolution or a copy thereof duly certified by a lawyer or notary public if so required by the Issuer and the Registrar, but it shall not be the duty or responsibility of the Registrar or Issuer to ascertain that such representative is duly authorised to appear on the Application Form.

7.3.5 In the case of joint Applications, reference to the Applicant in these Terms and Conditions is a reference to each of the joint Applicants, and liability therefor is joint and several. The person whose name shall be inserted in the field entitled "Applicant" on the Application Form, or first-named in the register of Bondholders shall, for all intents and purposes, be deemed to be such nominated person by all those joint holders whose names appear in the field entitled "Additional Applicants" in the Application Form or joint holders in the register, as the case may be. Such person shall, for all intents and purposes, be deemed to be the registered holder of the Bond/s so held.

7.3.6 In respect of a Bond held subject to usufruct, the name of the bare owner and the usufructuary shall be entered in the register. The usufructuary shall, for all intents and purposes, be deemed vis-à-vis the Issuer to be the holder of the Bond/s so held and shall have the right to receive interest on the Bond/s and to vote at meetings of the Bondholders but shall not, during the continuance of the Bond/s, have the right to dispose of the Bond/s so held without the consent of the bare owner, and shall not be entitled to the repayment of principal on the Bond (which shall be due to the bare owner).

7.3.7 Applications in the name and for the benefit of minors shall be allowed provided that they are signed by both parents or the legal guardian/s and accompanied by a Public Registry birth certificate of the minor in whose name and for whose benefit the Application Form is submitted. Any Bonds allocated pursuant to such an Application shall be registered in the name of the minor as Bondholder, with interest and redemption monies payable to the parents / legal guardian/s signing the Application Form until such time as the minor attains the age of eighteen (18) years, following which all interest and redemption monies shall be paid directly to the registered holder, provided that the Issuer has been duly notified in writing of the fact that the minor has attained the age of eighteen (18) years.

7.3.8 The Bonds have not been and will not be registered under the Securities Act of 1933 of the United States of America and accordingly may not be offered or sold within the United States or to or for the account or benefit of a U.S. person.

7.3.9 No person receiving a copy of the Prospectus or an Application Form in any territory other than Malta may treat the same as constituting an invitation or offer to such person nor should such person in any event use such Application Form, unless, in the relevant territory, such an invitation or offer could lawfully be made to such person or such Application Form could lawfully be used without contravention of any registration or other legal requirements.

- 7.3.10 It is the responsibility of any person outside Malta wishing to make any Application to satisfy himself/herself as to full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any other formalities required to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.
- 7.3.11 Subject to all other terms and conditions set out in the Prospectus, the Issuer reserves the right to reject, in whole or in part, or to scale down, any Application, including multiple or suspected multiple applications, and to present any cheques and/or drafts for payment upon receipt. The right is also reserved to refuse any Application which in the opinion of the Issuer is not properly completed in all respects in accordance with the instructions or is not accompanied by the required documents. Only original Application Forms will be accepted and photocopies/facsimile copies will not be accepted.
- 7.3.12 The Bonds will be issued in multiples of €100. The minimum subscription amount of Bonds that can be subscribed for by Applicants is €2,000.
- 7.3.13 The Bond Issue shall close on the earlier of: (i) the date on which the aggregate of Applications received from Existing Bondholders (as set out in section 7.2.3 above) reaches €8,500,000; or (ii) if following the allocation of all Bonds applied for as set out in para (i) the full €8,500,000 of Bonds would not have been allocated, on the lapse of the Intermediaries' Offer.

Within five (5) Business Days from closing of the Bond Issue, the Issuer shall announce the result of the Issue and shall determine, and issue a company announcement setting out, the basis of acceptance of applications and allocation policy to be adopted.

- 7.3.14 In the event that an Existing Bondholder has been allocated a number of Bonds which is less than the number applied for (a Maturing Bond Transfer), Maturing Bonds equal in value to the number of Bonds allocated to such Existing Bondholder shall be transferred to the Issuer as set out in section 7.2.1 above, whereas the remaining Maturing Bonds held by the Existing Bondholder and representing the aggregate nominal value of Bonds applied for but not allocated shall be retained by the Existing Bondholder.

In the event that Existing Bondholders applying for additional Bonds and/or Authorised Financial Intermediaries participating in an Intermediaries' Offer have been allocated a number of Bonds which is less than the number applied for, then such subscriber shall receive a full refund or, as the case may be, the balance of the price of the Bonds applied for but not allocated, without interest, by credit transfer to such account indicated in the Application Form or subscription agreement (as the case may be), at the subscriber's sole risk within five (5) Business Days from the date of final allocation.

- 7.3.15 For the purposes of the Prevention of Money Laundering and Funding of Terrorism Regulations 2008 as amended from time to time, all appointed Authorised Financial Intermediaries are under a duty to communicate, upon request, all information about clients as is mentioned in Articles 1.2(d) and 2.4 of the "Code of Conduct for Members of the Malta Stock Exchange" appended as Appendix IV to Chapter 3 of the Malta Stock Exchange Bye-Laws, irrespective of whether the said appointed Authorised Financial Intermediaries are Malta Stock Exchange Members or not. Such information shall be held and controlled by the Malta Stock Exchange in terms of the Data Protection Act (Cap. 440 of the Laws of Malta) for the purposes and within the terms of the Malta Stock Exchange Data Protection Policy as published from time to time.

- 7.3.16 By completing and delivering an Application Form, the Applicant:
- a agrees and acknowledges to have had the opportunity to read the Prospectus and to be deemed to have had notice of all information and representations concerning the Issuer and the issue of the Bonds contained therein;
 - b warrants that the information submitted by the Applicant in the Application Form is true and correct in all respects and in the case where an MSE account number is indicated in the Application Form, such MSE account number is the correct account of the Applicant. In the event of a discrepancy between the personal details (including name and surname and the Applicant's address) appearing on the Application Form and those held by the MSE in relation to the MSE account number indicated on the Application Form, the details held by the MSE shall be deemed to be the correct details of the Applicant;
 - c authorises the Issuer and the MSE to process the personal data that the Applicant provides in the Application Form, for all purposes necessary and subsequent to the Bond Issue applied for, in accordance with the Data Protection Act (Cap. 440 of the Laws of Malta). The Applicant has the right to request access to and rectification of the personal data relating to him/her as processed by the Issuer and/or the MSE. Any such requests must be made in writing and sent to the Issuer at the address indicated in the Prospectus. The requests must further be signed by the Applicant to whom the personal data relates;
 - d confirms that in making such Application no reliance was placed on any information or representation in relation to the Issuer or the issue of the Bonds other than what is contained in the Prospectus and accordingly agree/s that no person responsible solely or jointly for the Prospectus or any part thereof will have any liability for any such other information or representation;
 - e agrees that the registration advice and other documents and any monies returnable to the Applicant may be retained pending clearance of his/her remittance or surrender of the Maturing Bonds, as the case may be, and any verification of identity as required by the Prevention of Money Laundering Act (Cap. 373 of the Laws of Malta) and regulations made thereunder, and that such monies will not bear interest;

- f agrees to provide the Registrar and/or the Issuer, as the case may be, with any information which it/they may request in connection with the Application;
- g warrants, in connection with the Application, to have observed all applicable laws, obtained any requisite governmental or other consents, complied with all requisite formalities and paid any issue, transfer or other taxes due in connection with his/her Application in any territory, and that the Applicant has not taken any action which will or may result in the Issuer or the Registrar acting in breach of the regulatory or legal requirements of any territory in connection with the issue of the Bond or his/her Application;
- h warrants that all applicable exchange control or other such regulations (including those relating to external transactions) have been duly and fully complied with;
- i represents that the Applicant is not a U.S. person (as such term is defined in Regulation S under the Securities Act of 1933 of the United States of America, as amended) as well as not to be accepting the invitation set out in the Prospectus from within the United States of America, its territories or its possessions, or any area subject to its jurisdiction (the "United States") or on behalf or for the account of anyone within the United States or anyone who is a U.S. person;
- j agrees that Charts Investment Management Service Limited will not, in their capacity of Sponsor, treat the Applicant as their customer by virtue of such Applicant making an Application for the Bonds, and that Charts Investment Management Service Limited will owe the Applicant no duties or responsibilities concerning the price of the Bonds or their suitability for the Applicant;
- k agrees that all documents in connection with the issue of the Bonds will be sent at the Applicant's own risk and may be sent by post at the address (or, in the case of joint Applications, the address of the first named Applicant) as set out in the Application Form;
- l renounces to any rights the Applicant may have to set off any amounts the Applicant may at any time owe the Issuer against any amount due under the terms of these Bonds.

PART 1

1 KEY ACTIVITIES OF THE COMPANY

The principal activity of the Company is to carry on the business of a finance and investment company within the United Group.

The Company does not itself carry on any trading activities apart from: (i) leasing to third parties and a Group company commercial space in a property located in Ta'Xbiex; and (ii) the raising of capital and advancing thereof to members of the United Group. Accordingly, the Company is economically dependent on the operations and performance of the United Group.

2 KEY ACTIVITIES OF THE GROUP

The United Group was established some 90 years ago by the late Carmelo Gatt Baldacchino with the formation of the United Motor Company, a transportation company engaged in the field of bus service and chauffeur-driven vehicle services. With the rapid growth of the tourism industry in Malta in the 1960's, the company, under the leadership of Carmelo's son, Charles Gatt Baldacchino, diversified its business activities by establishing operations in destination management services, including leisure and excursion services for leading international tour operators. With the continued growth of the tourism industry in Malta and the lack of proper transportation facilities and infrastructure to handle such growth, Charles Gatt Baldacchino ventured into car rental services. This business performed well over the years and in 1961 was granted the Hertz franchise for Malta, a franchise still held today. The United Group operates the car rental business through United Garage Limited. In 1992, the company expanded its services by setting up a vehicle leasing division with the backing of Hertz Leasing.

In 1982, United Automobile Limited was appointed sole representative in Malta of the renowned car manufacturer Adam Opel A.G., and in 1991 was granted the sole distribution rights for the Saab brand. On 1 July 2011, United Automobile Limited agreed to merge its car dealership operations with the business of Easysell Kia (Malta) Limited through the setting up of a new company – Cars International Limited. The latter company is equally owned by the United Group and the Tumas Group and represents Kia, Opel, and DFM automotive brands in Malta. In 2006 the Group branched out in vehicle recovery and towing services through the acquisition of the CAA business.

During the past few years, the United Group implemented a revised strategy to enhance diversification of the Group's activities. The Group ventured in the retail sector operating two Debenhams department stores in Malta and three female fashion outlets, two in Sliema and the other in Valletta. In addition, the United Group has an interest in a major property development project through the acquisition of 19.23% of the equity capital of Pender Ville Limited.

4 GROUP ORGANISATIONAL STRUCTURE

The organisational structure of the Group is illustrated in the diagram below:

United Group Limited is the parent company of the United Group and is primarily focused on establishing and monitoring strategic direction and development of the Group. During the current financial year ending 31 December 2014, the Group initiated a corporate restructuring exercise as follows:

- United Automobile Limited (C 5845), G&G Automobile Limited (C 29084) and Gatt Estates Limited (C 4171) are non-operating companies and will be merged with UGL;
- United Retail Limited (C 36776), the operator of fashion retail outlets, was merged on 26 June 2014 with United Department Stores Limited (C 39811), the franchisee for the Debenhams brand. The brands will now be marketed through the latter company;
- United Assets and Management Services Limited (C 27053) is principally engaged in providing management services and support to Group companies. This company will be merged with UGL in the last quarter of 2014.

The aforementioned companies have been excluded from the Group organisational chart to reflect the position of the Group after the restructuring is completed.

5 GROUP OPERATIONAL DEVELOPMENT

The United Group is organised into three distinct business units: automotive, fashion retail and property. An analysis of revenue, extracted from the consolidated audited financial statements of United Group Limited, is provided below.

United Group revenue analysis €'000	FY2013 Actual	FY2012 Actual	FY2011 Actual

¹ On 1 July 2011, the car importation business was transferred from United Automobile Limited (a wholly owned subsidiary of United Group Limited) to Cars International Limited, a jointly controlled entity owned by the United Group and the Tumas Group.

Turnover generated by each of Cars International Limited and Pender Ville Limited, of which the Group has a shareholding of 50% and 19.23% respectively, is not consolidated on a line by line basis and therefore has not been included in the above analysis. Results of companies that are not subsidiaries of the Group are accounted for in the income statement below the operating profit line as 'share of results of associates and jointly controlled entities'.

5.1 FASHION RETAIL

5.1.1 History and Business

The United Group is the appointed franchisee in Malta of Debenhams and two other female fashion brands. The latter two brands are marketed through two outlets located in Tower Road, Sliema and Zachary Street, Valletta and offer a range of women's fashion clothing and accessories.

In the first quarter of 2010, United Department Stores Limited opened the Debenhams department store at The Point Shopping Centre in Sliema, Malta and covers over 2,500m² of shop floor. Debenhams' key product categories include womenswear, menswear, childrenswear and homeware. Since introducing Debenhams to the local market four years ago the Group has experienced encouraging year-on-year sales growth, which instigated the Group to open, in November 2012, a second 930m² Debenhams store at the Main Street Shopping Complex in Paola, Malta.

The Directors are of the view that the Debenhams brand, with its reputation for quality apparel at reasonable prices, has carved a competitive position in the apparel market in Malta. With an experienced Board and management team, the Group has the necessary expertise to further develop the Debenhams brand in Malta and fulfil its potential for future growth.

The key objective of the Group for its retail operations is to strengthen recognition of each of its brands, in particular Debenhams, within their respective target markets, enhance revenue growth and maintain efficiency at the operational level. At the same time, the Directors will continue to explore opportunities to invest in other retail concepts that offer features that are attractive to the Group in terms of benefits from possible synergies and revenue expansion.

5.1.2 Market Overview

Data in relation to the size of the apparel market in Malta is not published. Notwithstanding, an estimate of the market has been derived from data obtained from the National Statistics Office of Malta. The latest available information relates to calendar year 2012. The table below sets out statistics in relation to sales of apparel (excluding textiles, footwear and leather goods) by retail outlets in Malta. The information has been analysed by size of outlet on the basis of the number of staff employed by a retail store.

Chart III: Retail Apparel Market in Malta

Over the five year period to 2012, the total number of outlets remained relatively unchanged (2008: 725 units; 2012: 729 units). However there has been a shift from smaller stores (a decrease of 13 units in 5 years) to larger ones (+17 from 25 stores in 2008 to 42 stores in 2012). Furthermore, consumer spending has also changed and shows a preference towards the larger stores. In fact, in the period 2008 to 2012, smaller outlets registered a compounded annual decrease in turnover of 4.8%, while the larger outlets recorded a compounded annual growth rate in turnover of 13.8%. It is estimated that the retail arm of the United Group had a market share of 3.4% in 2012, which is based on the annual sales figure of €6.2 million. The market share is likely to have increased in 2013 further to the opening of the Paola outlet.

Chart IV: Retail Trade (2010 = 100)

Source: EUROSTAT (retail trade except motor vehicles and motor cycles quarterly data)

Chart IV above provides an indication of the trend in performance of the overall retail sector generally in Malta as compared to same activity in the EU (2010 being the base year = 100). It is observed that in the years 2004 to 2009, retail activity in Malta lagged behind the EU average. Post 2009 to Q2 2014, revenue generated from retail sales in Malta and the EU (average) has been broadly stable but marginally in decline. It would appear that the narrowing of the difference between Malta and the EU average after 2009 reflects the lower activity levels registered within the EU as opposed to a recovery in retail sales generated in Malta.

The above table outlines the historical performance of the Debenhams store in Malta and its peer group, which includes Marks & Spencer, Zara Complex and Next which has been extracted from the published audited accounts of each operator. BHS also operates a retail outlet of a similar size to that of Debenhams in Malta, but since the results of BHS incorporate its operations in North Africa it has been excluded from the analysis.

Chart V: Sales per sqm (2011 - 2013)

In the period under review, Debenhams increased total revenue by 21% from €5.0 million in FY2011 to €6.03 million in FY2013, fuelled in particular by the opening of the new Debenhams outlet in Paola in the last quarter of 2012. All other competitors performed at lower levels than Debenhams, except for Zara Complex which registered an increase of 33% from €6.1 million in FY2011 to €8.1 million in FY2013. Chart V above also sets out the revenue generated per sqm and shows that during the three year period, Debenhams recorded a decline in turnover per sqm. The primary reason for the decrease was due to the opening of a new store in Paola, which reduced the company's overall sales per sqm as this outlet is still in the process of establishing its market presence. As to gross profit, Debenhams has a superior margin (average gross profit margin of 49.4%) when compared to its peers (Marks and Spencer: 46.2%, Zara Complex: 44.7%; and Next: 48.3%).

5.1.4 Trend Analysis

The retail market in Malta grew at a compounded annual growth rate of 4.3% in the period 2008 to 2012, which is well above the European growth rate of 1.3% for the same period. Albeit, stiff competition is prevalent in the local market, both from local retailers as well as from online sales (through the internet). Given that the Group's brands, particularly Debenhams, are top international brands in the fashion retail sector, the Directors are confident that the Group's outlets can compete well for market share in Malta.

5.2 AUTOMOTIVE

5.2.1 History and Business

The companies forming part of this segment are primarily engaged in: (i) the importation and servicing of motor vehicles and the sale of parts and accessories; (ii) car rental and leasing service; and (iii) vehicle recovery and towing service.

Prior to 2011, Opel vehicles were distributed in Malta by United Automobile Limited. As a result of increased competition over the years in the local market, both from new motor vehicle franchises and used cars imported at competitive prices, the United Group agreed on 1 July 2011 to merge its car dealership business with the operations of Easysell Kia (Malta) Limited. The newly formed company, Cars International Limited, is equally owned by the United Group and the Tumas Group and represents Kia, Opel and DFM automotive brands in Malta.

The principal objectives supporting this transaction included:

- Substantial cost savings through the consolidation of human resources, property costs and selling, general and administrative overheads of both companies; and
- The newly merged operation is in a position to offer a wider variety of models in different segments and at various price levels, since it represents three car dealership franchises. This allows the company to have a superior presence across all market segments in the private vehicle classes in Malta, and also lessens its dependence on any particular model.

Cars International Limited operates from premises owned by Easysell Kia (Malta) Limited in Mdina Road, Qormi, Malta and includes a showroom and delivery area measuring 702m² and 435m² respectively. The after-sales and service centre is located in Pantar Road, Lija, Malta and measures circa 2,000m², with an additional 2,000m² reserved for customer parking. The property is leased from a third party company.

The United Group operates the car rental business under the Hertz brand through United Garage Limited. The company has been operating the Hertz brand in Malta since 1961, and owns a fleet of *circa* 240 self drive and leasing vehicles. It has over the years established a network of strategically located Hertz branded retail outlets at vantage points around Malta, including Malta International Airport and the main tourist resort areas.

United Garage Limited has recently launched a new brand in Malta, namely Firefly, also owned by Hertz. Firefly addresses the budget value segment of the car rental market. In this respect, United Garage Limited plans to price the Firefly fleet of vehicles at highly competitive rates. This will enable the company to increase its market spread and maintain a better pricing and yield model for its branded fleet.

In the early 1990s United Garage Limited also diversified its activities into car leasing, which it operates under the Hertz Leasing brand. This was a natural extension of the company's rent-a-car activities. Hertz Leasing is able to provide customers with a complete fleet management package from fleet planning to its financing, administration, maintenance, insurance and eventual replacement.

In January 2006 the Group through its subsidiary United Motor Company Limited (UMCL) acquired the business of CAA road towing and road assistance service. Despite the acquisition being a new venture for the Group, the Group's experience acquired throughout the years in the automotive services sector and the greater synergy within the Group's automotive division ensures that UMCL's customers are provided with the best possible service. Subscription to the service is obtained either directly by individuals or through agreements with insurance companies that offer CAA membership as part of their insurance package. The market has evolved in such manner that more than 80% of the company's current revenue is procured from insurance companies.

5.2.2 Market Overview – Vehicle Rental

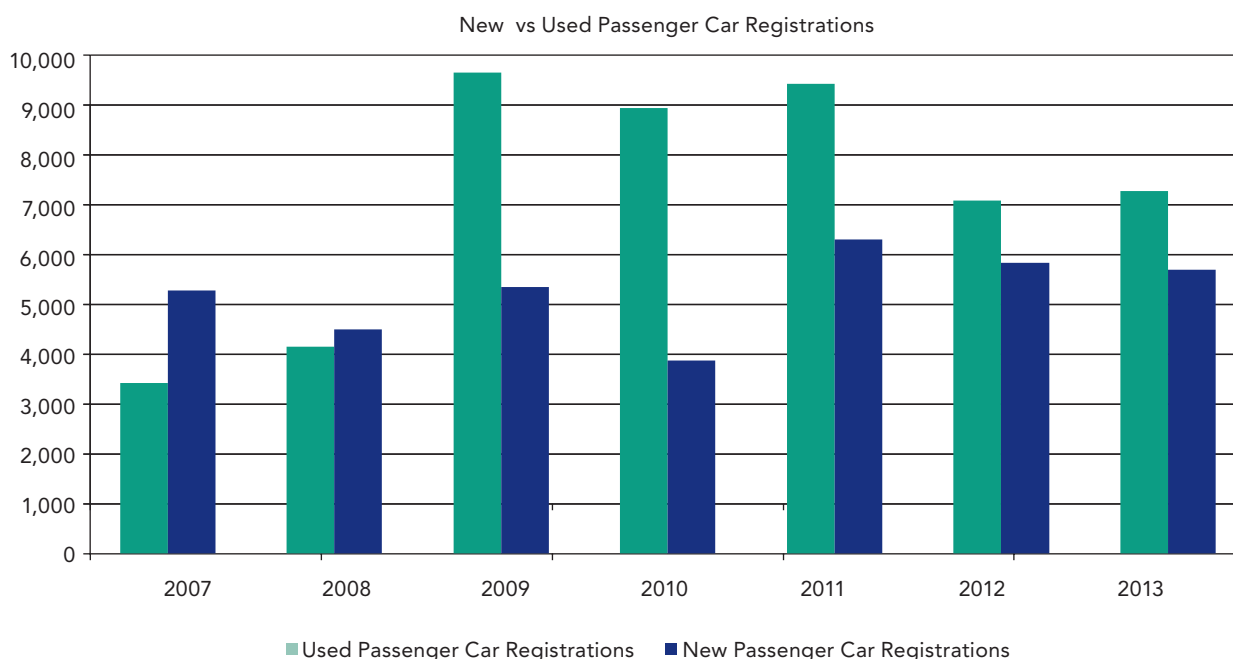

Competition among car rental industry participants is intense and is primarily based on price, vehicle availability and quality, service, reliability, rental locations and product innovation. Price has become more important in recent years due to two factors: (i) tourists visiting Malta are increasingly more price sensitive; and (ii) Malta has seen the emergence of small unbranded operators offering lower quality cars.

The local car rental industry has experienced increased demand in recent years primarily due to the growth in tourists visiting Malta (+18% since 2010 to 1.58 million visitors in 2013). On the other hand, available inventory of registered self drive and leased cars remained broadly stable at approximately 6,500 vehicles, and thus car rental operators were able to maintain or marginally increase car rental prices. The Group currently operates a fleet of *circa* 240 cars, which represents *circa* 3.7% of registered vehicles. The Directors believe that the reputation of the Hertz brand and the recent introduction to the local market of the Firefly brand will enable the Group to better compete across multiple market segments and thereby improve its market share.

5.2.3 Market Overview – Importation of Vehicles

Local market

Over the years the automotive sector in Malta has become highly competitive with a wider range of new motor vehicle franchises and models imported at competitive prices. In addition, the used car import market has grown substantially in the last few years as evidenced by statistics published by the National Statistics Office Malta and which are included in the table below. During the past decade, registered passenger cars in Malta increased by more than 57,000 vehicles, from 190,722 in 2004 to 248,245 in 2013, which is equivalent to a compound annual growth rate of 3%.

As indicated in the chart above the market has been inundated with substantial imports, particularly in terms of used cars from the United Kingdom, at the expense of imports of new cars. However in the last two years the importation of used cars and new vehicles has been fairly stable at *circa* 7,000 and 6,000 passenger cars respectively.

Market share of Cars International Limited

As indicated below, the market share of Cars International Limited has been broadly maintained over the years. Whilst the market share of any particular brand may be expected to vary from year to year, due to factors such as the quality of the current models, pricing competitiveness and exchange rates, on a combined basis the varied mix retailed by the company has enabled it to maintain a consistent overall market share.

The market share values indicated above have been extracted from the records of each of the automotive companies of the United Group and the Tumas Group for the period 1 January 2007 to 30 June 2011, combined accordingly to reflect the merger which took effect as from 1 July 2011. The market share values for the period 1 July 2011 to 31 December 2013 have been extracted from the records of Cars International Limited.

5.2.4 Trend Analysis

In the car hire and leasing market the United Group will continue to leverage its experience as franchisee of Hertz for more than 50 years in order to exploit further opportunities arising from the tourism market, evolving requirements from holiday makers and corporate client requirements. The local tourism sector is currently performing at record levels and as such the Group is focused to reflect same in its car rental business.

Trends in vehicle sales in Malta are satisfactory and Cars International Limited is well positioned to at least maintain its market share. The company represents well regarded automobile brands locally and in particular, Opel and Kia are among the top selling brands in Malta. New vehicle model launches by the brand companies augur well for the future trading prospects of Cars International Limited. Such prospects, together with increased marketing and new services being offered, including the option for clients to purchase vehicles on hire purchase terms, should maintain the company’s competitive edge in the local market.

In the towing and roadside assistance sector, the Group will continue to consolidate its market share and its business relationships with top local corporate clients, having regard to emerging industry trends and service quality levels.

5.3 PROPERTY

5.3.1 History and Business

The United Group owns a six storey commercial building known as GB Buildings and located at Ta’Xbiex, Malta. The site fronts Abate Rigord Street along its major facade facing East, Watar Street bounds the Northwest facade, while the Southwest parameter is bound by third party property. The property has a net floor area of 2,510m² and comprises of a showroom at the ground floor and basement levels, and offices in the overlying four floors.

GB Buildings is fully leased to third parties, except for one floor which is occupied by the Group. Other than the lease contract for the ground floor showroom which expires in 2035, the lease agreements are for terms which expire between 2016 and 2017, but are automatically renewed for further periods unless otherwise advised by the respective lessees. The carrying value of the property as at 31 December 2013 was €4.55 million (FY2012: €3.85 million).

The United Group has an interest in Pendergardens located in St Julians, Malta through the ownership of 19.23% of the equity capital of Pender Ville Limited. The Pendergardens Group was set up in July 2005 to acquire and develop the Pender Place site which covers an area of 18,500m² (known as 'Pendergardens') and the Mercury House site having a footprint of 8,500m² (known as 'The Exchange').

Pendergardens, which has a Special Designated Area status, is being developed in two phases. The first phase has been completed and includes 150 residential apartments spread over 6 blocks (Blocks 10 to 15) together with 406 car park spaces ("Phase I"). Out of available inventory, 149 apartments and 183 car park spaces have been sold over a six-year period to a mix of Maltese residents (46%) and foreigners (EU nationals – 43%, non-EU nationals – 11%). Construction of Phase II commenced in 2012 and includes the development of (i) Block 16 having a gross floor area measuring circa 16,404m² and consisting of 46 residential apartments, double height commercial space (1,336m²) and four levels of underlying car park; (ii) Block 17 having a gross floor area measuring circa 20,771m² and consisting of 43 residential apartments, commercial space (5,853m²) and underlying car park; and (iii) Towers I & II comprising a gross floor area measuring circa 22,684m², and which will offer 30 residential apartments and 8,784m² of office and retail space. It is projected that Phase II will be completed by mid-2018 and all units should be sold by the end of 2022.

The Exchange is earmarked for commercial use and will be promoted as a financial and business centre. It will consist of 16,700m² of office space within two towers and 10,800m² of retail and leisure outlets fronting a large public piazza. Car park spaces, numbering circa 476, will be available in the underground levels with direct vertical access to the offices and outlets. In 2009, an area measuring 950m² was sold to FIMBank plc, an international trade finance bank listed on the Malta Stock Exchange. Construction works were completed in September 2011 and the bank transferred its operations to the new premises in June 2012.

5.3.2 Market Overview

Performance of the property market in Malta has been modest in the past few years and has not fully recovered from the sharp fall registered in 2009. However, certain niche areas such as higher quality properties were more resilient and continue to perform reasonably well, partly due to various incentives implemented by Government to encourage purchases by foreign investors.

Malta experienced a brief housing boom between 2002 and 2005, and continued to grow at a more normalised rate from 2005 to 2007. Similar to other European countries, the Maltese property market declined considerably in the following two years as a result of the global financial crisis. Performance in the years 2010 to 2013 was relatively stable but still significantly below activity levels registered in 2007.

An analysis of property price movements is shown in Chart VI below and is based on the Central Bank of Malta's residential property price index, which tracks movements in advertised residential property prices. From 2000 to 2007, the Maltese property market enjoyed strong growth, with the overall house price index rising by 78.9%. Over the same period, apartment prices rose by 83.3%. By 2009, the house price index retracted 7.6% and apartment prices declined by 11.5%. Since 2010, property prices have recovered 10.9% and that of apartments improved by 7.7%.

New dwelling permits peaked in 2007, as depicted in Chart VII below, with 2,636 permits issued during the said year, but declined thereafter at a constant rate to a ten-year low of 958 permits in 2012. With respect to 2013, issuance of permits recovered marginally to 1,004. The total number of new dwelling permits is an indicator of the health of the construction sector, which is expected to remain weak at least in the near term.

National statistics relating to commercial property in Malta is currently not captured and therefore is more difficult to gauge the health of this sector. Notwithstanding the lack of such data, it can be deduced that since Malta has progressed towards a services oriented economy, the requirement for commercial property, in particular office space, has gained in demand. Moreover, in addition to the needs of local businesses, Malta has experienced in recent years an influx of foreign entities setting up operations in the country, such as remote gaming companies and financial services companies, which have further increased the demand for commercial premises and maintained a buoyant rental market. The positive view of this sector is further substantiated when assessing the supply side as a number of development projects earmarked for office and retail space are planned to commence in the coming years in response to such requirements.

5.3.3 Trend Analysis

GB Buildings is at present fully occupied. As a result, management is primarily involved in its upkeep in order to retain current tenants and attract prospective clients at better rates in the eventuality of expiring lease agreements. Due to its ideal location and good demand for commercial space in the Sliema – Ta'Xbiex area, management is optimistic that full occupancy can be retained in the foreseeable future.

With respect to operations at Pendergardens, there is active demand for the various units on offer, albeit at lower levels than at the height of the property market in 2007. Management is confident that the sales tempo for the remaining apartments in Phase II of the project will be in line with projected targets.

The commercial element of Phase II (commercial/retail/office area) is also expected to be appealing to prospective tenants and investors given that the frontage will be situated on a main arterial road and thereby offering maximum exposure. Moreover, the area enjoys a high level of activity as it is surrounded by a number of hotels (mostly in the five-star category), office blocks, including those to be developed at The Exchange Financial and Business Centre, and various retail, food and beverage outlets.

6 BUSINESS DEVELOPMENT STRATEGY

The United Group believes in diversification not only by way of a business strategy but also as a risk management policy for the benefit of all its stakeholders. The Group has evolved at a relatively rapid pace over the last four to five years and has diversified its operations from its core automotive business to investments in fashion retail and property. Such investments were executed through the acquisition of new operations as well as through strategic joint ventures with well established business partners that share and complement the Group's core business values. The Group's strategy is to consolidate and grow market share of its current business portfolio, and shall maintain its on-going pursuit for new, prudent and sustainable investment and business opportunities.

To sustain business growth and competitiveness the Group is streamlining its organisational structure to improve efficiency and enhance through the recruitment of professional management and strict cooperate governance, its strategic focus at operational level. Furthermore, the Group is restructuring its borrowings to better match the funding requirements of its operations and manage debt repayment programmes, which concurrently should result in a reduction in Group finance costs.

In the three historical financial years rental income increased from €178,000 in FY2011 to €224,000 in FY2013, primarily due to: (i) a change in tenants in 2012 occupying level 1 and level 3 of GB Buildings which gave the Issuer the opportunity to negotiate higher rental rates; and (ii) the leasing out of the showroom at ground floor level in 2013, which area was vacant for a period of time. The property is fully occupied and rental income is projected to increase from €224,000 in FY2013 to €360,000 in FY2015 reflecting increments in rents negotiated with respective tenants.

Loans and advances to Group companies amounted to €8.5 million in FY2011 and progressively decreased to €7.5 million in FY2013. It is projected that said loans will amount to €6.7 million and €7.1 million as at 31 December 2014 and 31 December 2015 respectively. Interest earned on advances to Group companies averaged €643,000 in FY2011 – FY2013, but should decrease to €437,000 by FY2015, primarily as a result of lower interest rates that will be charged on such loans further to the proposed issue of the new bond.

Further to the transfer of the automotive business to Cars International Limited in June 2011, the United Group did not factor any bills of exchange, and therefore interest earned on bills of exchange has gradually decreased over the period under review. This income will cease in 2017 when the remaining bills of exchange are fully repaid.

Interest payable primarily reflects interest paid by the Company on the €12 million 6.75% bonds 2014 - 2016 which bond will be redeemed in FY2014. Interest expense is expected to decrease significantly in FY2015 as the Issuer is set to replace the existing bond with a new €8.5 million bond (that is €3.5 million less than the current outstanding bond) at a lower coupon rate.

For the financial year ended 31 December 2013, the Issuer registered an increase of €0.7 million in the fair value of its property (GB Buildings) to €4.5 million. Apart from the said property, total assets of the Issuer primarily comprise loans and receivables due from Group companies (FY2013: €7.4 million), available-for-sale financial assets (FY2013: €1.3 million) and cash and cash equivalents (FY2013: €1.1 million). Liabilities of the Issuer principally include €11.6 million in bonds as at the end of FY2013, which will be reduced to €8.5 million through the issuance of a new bond as from FY2014.

The Group's total revenue contracted from €10.1 million in FY2011 to €9.4 million in FY2013. The overall reduction reflects the transfer effected in FY2011 of the car dealership operation to Cars International Limited, a jointly controlled entity. Revenue generated from the retail division improved by €0.9 million from €5.9 million in FY2011 to €6.8 million in FY2013. It is projected that Group revenue will increase by €1.1 million over a two-year period to surpass €10.6 million by FY2015. Such increase is principally expected from further improvements in performance of the Group's retail stores.

During the three historical years under review, EBITDA increased from €1 million in FY2011 to €1.5 million in FY2013, which reflects a progressive increase in the EBITDA margin of the Group from 10% in FY2011 to 13% in FY2012 and 16% in FY2013. EBITDA margin is projected to remain broadly stable at circa 14%. In FY2013, the Issuer registered an increase of €702,000 in the fair value of GB Buildings, which enabled the Group to register a net profit of €530,000.

As part of the Group's refinancing programme, the directors resolved in FY2014 to dispose of a number of real estate assets, the proceeds of which will be utilised to reduce the Group's debt balances. During the current financial year, the Group disposed of the former Hertz operating base in Gzira for €2.85 million, comprising of a cash consideration of €1.5 million and the remaining balance being settled through the transfer of a number of properties from the purchaser to the Group. In addition, the Group concluded other property sales for an aggregate consideration of €1.37 million, of which a property valued at €0.5 million is still at preliminary agreement stage. The final sale contract is expected to be signed by the end of the year. The Group is forecasting for FY2014 a profit of €2.8 million on the disposal of the properties referred to above.

Gearing (financial leverage) of the United Group has decreased marginally during the three financial years FY2011 – FY2013 from 84% to 81%, and is expected to continue to decline to 77% in FY2014 due to the disposal of a number of Group properties and the resultant decrease in outstanding bonds from €11.6 million to €8.5 million. The Group's gearing level is projected to decrease gradually through the term of the Bond as operational performance improves and cash reserves are accumulated by the Group.

8.4 CASH FLOW STATEMENT - THE GROUP

Net cash from operating activities during the three years under review increased by 73% (from €0.8 million in FY2011 to €1.4 million in FY2013), primarily due to the positive performance of the Group's fashion retail operations. This trend is expected to continue in FY2014 and FY2015 as the Group's retail stores are forecasting further growth in EBITDA. During FY2014, Group is expected to settle a number of overdue creditor balances which is reflected in the forecast decrease in net cash inflows from operating activities.

Cash used in investing activities between FY2011 and FY2013 amounted to €2.6 million and mainly represented the continued investment in the Group's car hire and leasing fleet and the expenditure relating to the new Debenhams store in Paola. In the projected period, such expenditure in the car hire and leasing fleet is expected to be maintained. In FY2014, the Group will dispose of various properties, mainly the previous Hertz office in Gzira, and it is anticipated that cash inflows from such transactions will total €2.3 million.

The principal movement in financing activities over the three financial years (FY2011 – FY2013) related to the repurchase of bonds which amounted to €0.4 million. Apart from interest payments on outstanding bank borrowings and bonds, net cash from financing activities in FY2014 will include the redemption of outstanding bonds estimated at €3.1 million (cash outflow) and a drawdown of €1.5 million (cash inflow) from new bank facilities. In FY2015, cash movements in financing activities will predominantly represent bank and bond interest payments.

Annual Accounts: For the year ended 31 December 2013, except for Island Hotels Group Holdings plc (YE 31/10/2013),
Simonds Farsons Cisk plc (YE 31/01/2013), Tumas Investments plc (YE 31/12/2012) and AX Investments plc (YE 31/10/2013).

The interest cover ratio determines the ability of a company to pay interest on its outstanding borrowings. For the financial year ended 31 December 2013, the United Group's EBITDA was 1.52 times higher than interest expenses for the year. This indicates that the Group is generating sufficient earnings to service its outstanding debt.

The debt to equity ratio or gearing ratio demonstrates the degree to which the capital employed in a business is funded by external borrowings as compared to shareholders' funds. A company with high leverage tends to be more vulnerable when its business goes through a slowdown. The debt to equity ratio of the United Group is at 81%, which is relatively high. The Group has in recent years been active in reducing its level of debt. More importantly, in the current financial year, the Group has disposed of a number of properties in order to hasten this process. Notwithstanding, the leverage of the Group will remain in the high 70s in FY2014 and FY2015.

Chart IX: Bond Yield to Maturity

The premium over Malta Government Stock has been assumed at 334 basis points, which is the average premium for medium term corporate bonds. The United Finance Bond has been priced at 196 basis points above Malta Government Stock and equal to listed corporate bonds.

Share of results of associates and jointly controlled entities	The United Group owns minority stakes in a number of companies (less than 50% plus one share of a company's share capital). The results of such companies are not consolidated with the subsidiaries of the Group, but the Group's share of profit is shown in the profit and loss account under the heading 'share of results of associates and jointly controlled entities'.
